ASSIGNMENT

WHEREAS We, the below named inventors (Assignors), have made an invention entitled:

Quickly replaceable processing-laser modules and subassemblies

for which We have submitted or are currently submitting a United States patent application; and

WHEREAS, OptiSolar, Inc., a Delaware corporation, whose post office address is 31302 Huntwood Ave.; Hayward, CA 94544 (Assignee), desires to secure the entire right, title, and interest in and to this invention in all countries throughout the world, including the United States patent application for this invention and any letters patent issuing from the application;

NOW THEREFORE, for good and valuable consideration received, We, as Assignors, sell, assign, transfer, and set over my/our entire right, title, and interest in and to this invention, this application, and any divisions, continuations, letters patent, and reissues resulting from it, to the Assignee and its lawful successors and assigns. We, as Assignors, also transfer to the Assignee all rights to claim priority based on this application and all interests in any foreign applications, letters patent, extensions, renewals, and reissues. We hereby authorize and request the Commissioner of Patents and Trademarks of the United States, and any official of any foreign country whose duty it is to issue patents on applications as described above, to issue all Letters Patent for this invention to Assignee, its successors and assigns, in accordance with the terms of this Assignment;

AND, WE HEREBY covenant that WE have the full right to convey the interest assigned by this Assignment, and WE have not executed and will not execute any agreement in conflict with this Assignment;

AND, WE HEREBY further agree that We will, without further consideration, communicate with Assignee, its successors and assigns, any facts known to me/us respecting this invention, testify in any legal proceeding, execute and deliver any papers including divisional, continuation, and reissue applications, make all rightful oaths and generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper patent protection for this invention in the United States and any foreign country, with any expense incident to the execution of such papers borne by the Assignee, its successors and assigns.
