WHEREAS, Assignor has good, marketable, and indefeasible title to United States Patent No. 5,679,254 (the "Patent");

Assignor hereby authorizes the U.S. Patent and Trademark Office, and any Official of any country or countries foreign to the United States or any multinational organization whose duty it is to receive or register patents or applications therefor, to record Assignee as the owner of the Patent and to issue all registrations for said Patent, to be in the name of Assignee, as assignee of the Patent, for the sole use of Assignee, its successors, legal representatives, and assigns, in accordance with the terms of this Patent Assignment.
