INTELLECTUAL PROPERTY ASSIGNMENT (INTERNATIONAL)

This INTELLECTUAL PROPERTY ASSIGNMENT (the "*Assignment*") is effective as of February 8, 2008 (the "*Effective Date*"), by and among ALAN ELLMAN, at c/o Ellman Innovations, LLC, 3333 Royal Avenue, Oceanside, New York 11572 and JON GARITO, residing at 906 Wateredge Place, Hewlett Harbor, New York, 11557 (collectively "*Assignors*"), and ELLMAN INTERNATIONAL, INC., a New York corporation having a place of business at 3333 Royal Avenue, Oceanside, New York 11572 ("*Assignee*").

WHEREAS, pursuant to the Stock Purchase Agreement dated as of February 8, 2008 among the parties hereto and Ellman Holdings, Inc., a Delaware corporation ("*Holdings*"), and the Transfer and License Agreement dated as of the date hereof among the parties hereto (together, as each may be amended from time to time in accordance with the terms thereof, the "*Agreements*"), Assignors have agreed to assign, transfer and convey all of their right, title and interest in and to certain intellectual property to Assignee; and

WHEREAS, Assignors are the owners of all right, title and interest in and to the intellectual property listed in Schedule A hereto;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors and Assignee hereby agree as follows:

1. Assignors hereby sell, assign, transfer, convey and deliver to Assignee, its successors, assigns or other legal representatives, all of their right, title and interest in and to the patents and patent applications listed in Schedule A(1) and all continuation, divisional, and continuation-in-part applications and other applications claiming the benefit thereof or priority thereto, and all Letters Patent of the United States that may be granted thereon, and all reissues, reexaminations, and extensions of the foregoing, and all applications for patents, utility models, inventors' certificates, and designs, or other industrial property protection, which may hereafter be filed with respect to said invention in any country or countries other than the United States, along with the right to file such applications and the right to claim priority to any corresponding application under any international or other applicable law, and all rights to bring actions at law or in equity for the past, present and future infringements, misappropriations or other violations of any of the foregoing, including all income, royalties, damages, payments, accounts and accounts receivable now or hereafter due and/or payable under and with respect thereto;

2. Assignee is to hold all right, title and interest in and to the Intellectual Property as fully and exclusively as it would have been held and enjoyed by Assignors had the assignment in Section 1 not been made. Assignors shall not contest Assignee's ownership of the Intellectual Property, including in any claim, action, arbitration, suit, inquiry or proceeding.

3. Assignors each hereby further covenants and agrees that he or it, as the case may be, will, without additional consideration, communicate to the Assignee, its successors, assigns and legal representatives, any facts known to him or it respecting the Intellectual Property, take such further actions, make all rightful oaths and execute promptly such further documents, including for any continuing, reissue, or foreign application, all as are necessary or desirable to transfer, vest, record and perfect good, valid and marketable title in Assignee or its

successors, assigns and legal representatives in all countries, to the Intellectual Property herein assigned.

4. Assignors hereby authorize Assignee to request the relevant government entity or agency to record Assignee as the assignee and owner of the entire right, title and interest in and to each of the Intellectual Property, for the sole use and enjoyment of Assignee, its successors, assigns and other legal representatives.

5. Each Assignor hereby represents and warranties that Assignors collectively have the full right to convey the entire interest herein assigned, and that they have not executed, and will not execute, any agreement in conflict herewith.

6. This Agreement may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.

7. This Agreement shall be governed by and construed in accordance with the laws of the State of New York applicable to contracts executed in and to be performed in that State, without regard to the choice of law or conflicts of laws thereof.
