ASSIGNMENT

FOR VALUE RECEIVED, We, the below-named inventors, hereby sell, assign and transfer to **Star Tech Instruments, Inc.**, a corporation duly organized and existing under the laws of the state of Connecticut, P.O. Box 1822, New Fairfield, Connecticut 06812, and the successors, assigns and legal representatives of **Star Tech Instruments, Inc.**, the entire right, title and interest for all countries in and to a certain invention relating to **UNIFORMLY RESPONSIVE ULTRAVIOLET SENSORS**, which is described in a US Non-provisional Application for Letters Patent of that title, filed January 11, 2008, Serial No. 12/008,587, together with all improvements therein we may develop, and all rights and privileges under any and all Letters Patent issuing therefrom or claiming priority or other benefit thereto, and any and all other Letters Patent that may be granted for the invention and any improvements therein.

We request that any and all patents for said inventions be issued to said assignee, **Star Tech Instruments, Inc.**, its successors, assigns and legal representatives, or to such nominees as it may designate.

We agree that, when requested, we will, without charge to said assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said assignee, its successors, assigns and legal representatives or nominees.

We authorize and empower the said assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by convention which may henceforth be substituted for it, or by any other convention providing benefit of a right of priority, and to invoke and claim such right of priority without further written or oral authorization from me.

We hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment or consent to file a like document which may be required in any country for any purpose and more particularly in proof of the right of the said assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International Convention for the protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

We covenant with said assignee, its successors and assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that we have full right to convey the same as herein expressed.
