Assignment (Under 35 U.S.C. 261)

We, Leslie Lloyd Leroy Lang, Paul Roy Larson, John Alexander MacDonald, hereafter referred to as the applicants, are the inventors of a new application, titled "A System That Removes Contaminants From Sulfur," hereafter referred to as the application, which was executed by the applicants on February 14, 2008; and we, the applicants, by our signatures below, assign the entire right, title, and interest of the application to The Brimrock Group Inc., 254 Chaparral Place S.E., Calgary, Alberta, Canada T2X3K5, hereafter referred to as the assignee.

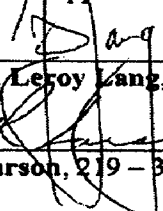

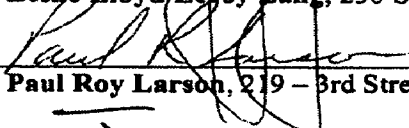

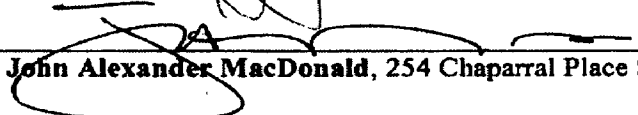

We, the applicants, by our signatures below, assign and transfer unto the assignee the full and exclusive right to any invention described in the application; and we assign the entire rights, title, and interest in and to any and all patents, corresponding to the application, which may be granted.

We, the applicants, by our signatures below, hereby authorize and request the Director of the United States Patent and Trademark Office to issue a United States Patent to the assignee, of the entire right, title, and interest in and to the same, for the assignee's sole use; and for the use of the assignee's legal representatives, to the full end of the term for which the Patent may be granted, as fully and entirely as the same would have been held by us, the applicants, had this assignment not been made.

Executed this 25th day of March, 2008,
Day of Month (Print) Month (Print)

at Suite 430, 11979 - 40th St. S.E. Calgary, Alberta, Canada.
Address of Location of Execution of Assignment (Print)
