for which we have made a provisional application in the United States of America under 35 U.S.C. 111(B), our Attorney's Docket No. PTC-350-B; and

WHEREAS, **COMAU INC.**, a corporation of the State of Michigan, having its principal place of business at 21000 Telegraph, Southfield, Michigan 48033, desires to acquire the entire right, title and interest in and to said invention.

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable considerations, receipt whereof is hereby acknowledged, we, by these presents do sell, assign, and transfer unto said corporation, its successors and assigns, all right, title and interest in the United States of America and all foreign countries in and to said invention as described in the patent application filed on the ____ day of April, 2008 and all Patents, United States and foreign, granted upon any applications based on or claiming priority of said provisional application thereof or for the inventions described therein, and any reexaminations, reissues or extensions of said Patents; and we hereby authorize and request the Commissioner of Patents and Trademarks to issue all Patents on said United States applications to said corporation as assignee thereof.

FOR SAID CONSIDERATIONS, we hereby covenant and agree that we are the owners of the full title herein assigned and have the right to assign the same, and agree that we will communicate to said corporation or its representatives, any facts known to us respecting said invention or inventions and testify in any legal proceedings relating thereto when called upon, and, on behalf of ourselves and our legal representatives and successors, will sign all instruments and documents and render such assistance which in the judgment of said corporation is necessary to vest in it and protect the legal title sought to be assigned, including, but not limited to, the execution of a declaration for an application filed under 35 U.S.C. 111(a) based on or claiming priority of said provisional application.

We authorize and empower the assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for the inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which
