WHEREAS, Iwao Ojima of the State University of New York at Stony Brook, have invented "Process for the Production of Chiral Hydroxy-B-Lactams and Hydroxyamino Acids Derived Therefrom," (our Invention Number R-826), and filed a patent application thereon in the United States bearing Serial Number 842,444, filing date February 27, 1992 and issued as Patent No. 5,294,737 on March 15, 1994; and

WHEREAS, the invention was made in the course of research supported by the National Science Foundation, contract/grant number R01-GM-4279801A1 and

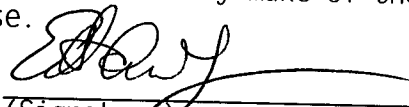

WHEREAS, the United States Government, as represented by the National Institutes of Health is entitled to certain rights in and to said invention by reason of the terms of such support; and

WHEREAS, The Research Foundation of State University of New York, hereinafter called the "Licensor", has acquired by assignment from the inventor the entire right, title, and interest of the inventor to such invention;

NOW, THEREFORE

1. The Licensor, in consideration of the premises and other good and valuable consideration, hereby grants and conveys to the United States Government a royalty-free, non-exclusive and irrevocable license for governmental purposes and on behalf of any foreign government pursuant to any existing or future treaty or agreement with the United States. As used herein, "governmental purpose" means the right of the Government of the United States, including any agency thereof, to practice and have practiced (made or have made, used or have used, sold or have sold) in connection with programs funded in whole or in part by the Federal Government throughout the world by or on behalf of the Government of the United States.

2. The Licensor covenants and warrants that it has the right to grant the foregoing license, and that any assignment which it may make of the invention shall expressly be made subject to this license.
