ASSIGNMENT OF PATENT RIGHTS

For good and valuable consideration, the receipt of which is hereby acknowledged, **British Telecommunications plc** ("Assignor"), a **UK registered** corporation, having a business address at **81 Newgate Street, London, EC1A 7AJ UK**, does hereby:

- (a) irrevocably assign to **Apple Inc**, a **California** corporation having a business address at **1 Infinite Loop, Cupertino, CA 95014** ("Assignee"):

(1) its entire right, title and interest in (i) each and every patent as listed in the attached Schedule to this Assignment of Patents, which for the avoidance of doubt includes U.S. Pat. Nos. 6956564 (hereinafter collectively or individually "Patent(s)") including but not limited to all rights to collect royalties under such Patent(s); (ii) all rights of priority in any of the foregoing Patent(s), and any divisionals, continuations, continuations-in-part, substitutes, reissues, renewals, reexaminations, and extensions of such patent; and (iii) foreign counterparts to any of the foregoing including but not limited to utility models (collectively, the "Subject Matter"); and

(2) the right to sue third parties for Patent(s) infringement (including but not limited to damages) accruing based on activities occurring prior to the execution date hereof, including but not limited to all rights to recover damages for infringement of provisional rights;

- (b) agree, upon request (and at the entire expense) of Assignee to execute all oaths, assignments, powers of attorney, applications and any other papers necessary to perfect Assignee's title in the foregoing.

Assignor agrees that Assignee may apply for and receive patents for the Subject Matter in Assignee's own name. Assignor grants the attorney of record the power to insert on this Assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

This Assignment may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same Assignment.

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Patent(s) in the name of Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment of Patent(s) will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

The effective date of this Assignment is **December 14th**, 2007.
