COMPREHENSIVE ASSIGNMENT OF PROPRIETARY RIGHTS IN PATENTS,
PATENT APPLICATIONS AND INVENTION DISCLOSURES

This ASSIGNMENT OF GRANTED PATENTS, PATENT APPLICATIONS AND INVENTION DISCLOSURES is made 13th day of July 1995, from CV Laboratories Limited, Gordon House, Gordon Road, Aldershot, Hants GU11 1LD, England (the "Assignors") to E.R. Squibb & Sons, Inc., a Delaware corporation, whose address is Route 206 & Provinceline Road, Princeton, New Jersey 08540 ("Assignee").

WHEREAS, Assignors are the owners of (i) the patents which were registered in, and the patent applications which were filed with, the British Patent Office and the appropriate legal, administrative or regulatory entities in the countries and jurisdictions so indicated; and (ii) the invention disclosures; all as indicated on Schedule A attached hereto (collectively, the "Patents"); and

WHEREAS, Assignors have agreed to transfer to Assignee all of Assignors' right, title and interest in and to the Patents pursuant to the Agreement of Purchase and Sale, dated as of November 2, 1994, by and among Assignors, CVL Acquisition Corporation and Bristol-Myers Squibb Corporation (the "Agreement");

NOW THEREFORE, in consideration of the sum of one dollar and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do agree

as follows:

(1) Assignors DO HEREBY ASSIGN, TRANSFER AND CONVEY to Assignee, its successors and assigns forever, all of the right, title and interest, whether statutory or common law, of Assignors in, to or arising under the Patents, and any and all reissues, divisions, continuations, continuations-in-part and extensions of the Patents, and the registrations and applications of Patents identified on Schedule A, in Great Britain, the United States and elsewhere, as fully and entirely as the same would have been held by Assignors if this Assignment had not been made, including but not limited to, the right of priority under the International Convention for the Protection of Industrial Property and under any other international arrangement to which the United States of America is now or hereafter becomes a signatory.

(2) Assignors do hereby also assign in all countries of the world any and all of Assignor's right, title and interest in and to any and all copyright property appertaining any drawings or other materials relating to the tangible means of expression and illustration of the said Patents.

(3) Assignors pledge and agree to provide any such further information and documentation as may be necessary to record

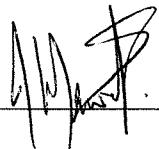

the assignments effected in paragraph (1) above in Great Britain, the United States and in any and all other appropriate countries or jurisdictions. Subject to the conditions set forth in the Agreement, and until the appropriate assignment document is recorded in the particular jurisdiction, and provided the Assignee is using best efforts to record the assignment, Assignors agree to take any appropriate action or authorize Assignee or any designee referred to in paragraph (4) below to take such action in the name of either Assignor, in connection with any Trademarks being transferred hereunder, as requested by Assignee, and at the expense of Assignee. Assignee agrees to indemnify and hold harmless Assignors, its affiliates, their respective officers, directors, employees and agents from and against any and all Losses (as such term is defined in the Agreement), based upon, arising out of, or resulting from such action.

(4) Upon notice by Assignee, Assignors do hereby covenant and agree to provide any such further information and documentation as may be necessary to record, in each relevant jurisdiction, the assignments effected in paragraph (1) above, and any subsequent assignment by the Assignee which occurs prior to the initial recording in each such jurisdiction of such assignments after the date hereof, in the name of any party duly designated by the Assignee.

(5) This Assignment is made pursuant to, and subject to the terms of, the Agreement. To the extent of a conflict between the provisions of this Assignment and the Agreement, the provisions of the Agreement shall govern.
