LICENSE TO THE GOVERNMENT

In accordance with a Contract set forth below between the Government of the United States of America, as represented by the National Institutes of Health and the below-named Contractor, the invention cited below is a Subject Invention made in the performance of work under the Contract; and The Contractor has elected to retain title to the Subject Invention; and the National Institutes of Health, after consultation with the Contractor, has granted the request for retention of rights by the Inventor, an employee of the Contractor subject to the provisions of 35 U.S.C. Section 202 (d) subject to a license to the Government, as described below.

NOW THEREFORE, pursuant to the terms and conditions of the Contract, the Contractor/Inventor does hereby grant to the Government of the United States a non-exclusive, non-transferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States this subject Invention throughout the world for which the Contractor/Inventor has elected to retain title:

Serial No.: 08/407,900 filed 3/21/95
NIH Case No.: GM18639 and AI22295
Contractor: The University of Colorado and/or the University of Arizona
Contract No.: GM18639 and AI22295
Contractor Case No.: IR 346
Patent/Issued: Pending
Inventor(s): Andrew Staehelin, david Galbraith, Thomas Giddings
Title: "Product and Process for Membrane and Soluble Polypeptide Segregation"

The Contractor/Inventor agrees to include, within the specification of any United States patent application and any patent issuing thereon covering this Subject Invention, the following statement:

"This invention was made with Government support under contracts GM18639 and AI22295 awarded by the National Institutes of Health. The Government has certain rights in this invention."

The Contractor/Inventor further agrees to notify the National Institutes of Health of any decision not to continue prosecution of the patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than thirty days before the expiration of the response period required by the U.S. Patent and Trademark Office.

Title to this invention is subject to the March-in-Rights by the National Institutes of Health as stated in 35 U.S.C. Section 203.

The Government hereby requests that the Contractor/Inventor furnish a copy of the patent application cited above and a listing of each country in which applications were filed. In the event a patent(s) issues on the applicant(s), the patent number(s), the issue date, and the country be made known to the Government as soon as it is available to the Contractor/Inventor.
