all our rights to

United States Patent Application No. 10/535,500 for the invention entitled

METHODS AND KITS FOR DIAGNOSING AND TREATING B-CELL CHRONIC  
LYMPHOCYTIC LEUKEMIA (B-CLL)

This assignment covers the entire right, title and interest in and to the aforesaid invention, the Application, and any and all improvements and/or modifications to the aforesaid invention and Application, and in and to any and all patent applications and/or Letters Patent of the United States or any other country related to the invention, the Application, and/or any and all improvements and/or modifications to the aforesaid invention and applications, including but not limited to, provisional applications, conversions to utility applications, continuations, continuations-in-part, continuing prosecution applications (CPAs), requests for continuing examination (RCEs), reissues, reexaminations, extensions, substitutes, renewals and divisions which may be filed or granted therefor and all rights to claim priority in whole or in part on the basis of the application.

The Assignor hereby covenants for us and our legal representatives, and agrees with said Assignee, its successors and assigns, that we have the full right to convey the entire interest herein conveyed and that we have granted no right or license to make, use, sell or offer to sell said invention, Application, any other applications or properties identified herein, to anyone except said Assignee, that prior to the execution of this deed, our right, title and interest in said invention, Application, or any other applications or properties identified herein had not been
