Statement Regarding Assignment

SIR:

Enclosed for the above divisional patent application is the assignment for U.S. patent application number 11/107,304 filed on April 15, 2005. U.S. patent application number 11/107,304 is the parent application of the present divisional patent application.

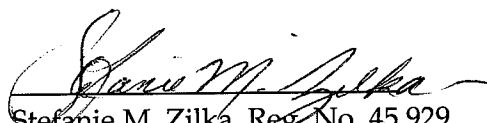

The previously executed assignment is submitted as it effectuates the sale, assignment and transfer, from Franz Och to University of Southern California of the entire right, title and interest throughout the world in the inventions and improvements which are the subject of the parent application in addition to "any and all United States and foreign patents, utility models, and design registrations granted for any of said inventions or improvements and the right to claim priority based on the filing date of said application under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes".

The Assignment Division is respectfully asked to record the assignment for U.S. patent application number **11/107,304** against the present divisional filing.

Respectfully submitted,
Franz Och
