ASSIGNMENT CORRECTIVE DOCUMENT

Dear Sir:

In the USPTO's assignment database, two assignments are recorded against U.S. Patent 5,949,766.

The assignment listed second (recorded on December 30, 1996, at Reel/Frame 008386/0539) is correct. It records the inventors' original assignment of their interest in U.S. Patent Application 08/777,563 to Motorola. That is the full extent of the correct chain of title to U.S. Patent 5,949,766 which resulted from this patent application. No further valid assignment has ever been made. I affirm that Motorola remains the sole owner of this patent.

However, the first assignment (recorded on November 13, 1996, at Reel/Frame 008309/0980) is incorrect. It appears that this assignment, from Sung-Eun Yoo et al. to the Korea Research Institute of Chemical Technology ("KRICT"), should have been recorded against U.S. Patent Application 08/737,563 (now U.S. Patent 5,665,738). However, by a simple one-digit error, the assignment was erroneously recorded against Motorola's U.S. Patent Application 08/777,563 (now U.S. Patent 5,949,766).

Patent Number: 5,949,766

I have contacted a representative of KRICT. While the representative acknowledges the assignment error as described above, KRICT is no longer interested in its U.S. Patent 5,665,738 and thus is not interested in correcting the assignment.

Would you please expunge Sung-Eun Yoo et al.'s erroneously filed assignment from the record or at least mark it as invalid?

Attached to this Assignment Corrective Document is a corrected cover sheet.

Please charge any fees that may be due to Deposit Account 502117, Motorola, Inc.

Respectfully submitted,

By:
