THIS ASSIGNMENT, made this 30 day of May 2008, by James Jeffrey Harris, a U.S. citizen having an address at 2592 Westridge Drive, Cameron Park, California 95682 (hereinafter referred to as "Assignor").

WHEREAS, Assignor owns all right, title and interest in and to the United States patents and applications for patents identified and set forth in Exhibit A1 and A2 attached hereto, and the inventions embodied in such patents and patent applications (collectively, the "Patents"); and

WHEREAS, Intevras Technologies, LLC, a limited liability company organized under and pursuant to the laws of Texas having its principal place of business at 111 Congress Avenue, Suite 3000, Austin, Texas 78701 (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title and interest in and to the Patents;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and sufficient consideration, the receipt of which is hereby acknowledged, Assignor has sold, assigned, transferred and set over, and by these presents does sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the Patents, and in and to any and all direct and indirect conversions, divisions, continuations and continuations-in-part of the Patents in the United States and all foreign countries which may be granted therefore and thereon, and reissues, reexaminations and extensions of the Patents, and all rights under the International Convention for the Protection of Industrial Property, the same to be held and enjoyed by Assignee, for its own use and benefit and the use and benefit of its successors, legal representatives and assigns, to the full end of the term or terms for which any of the Patents may be granted and/or extended, as fully and entirely as the same would have been held and enjoyed by Assignor, had this sale and assignment not been made.

AND, if Assignee's Board of Managers resolves to abandon a patent application or patent that is the subject of this Assignment, Assignor shall thereafter have a right of reversion with respect to such patent or patent application. Upon Assignee's election to abandon a patent or patent application assigned hereunder, Assignee shall provide written notice thereof to

Assignor and, thereafter, Assignee shall take, at Assignor's expense, whatever actions are necessary to transfer all right, title and interest in and to such patent application or patent to Assignor, including signing all papers and documents, take all lawful oaths and do all acts necessary or required to be done for the transfer thereof to Assignor.

AND, any time after the date hereof, Assignor may make inquiry of Assignee's intent to abandon the patent applications or patents conveyed hereunder by providing written notice to Assignee whereupon Assignee shall, within thirty (30) days after the receipt of such notice, notify Assignor in writing of (i) Assignee's intent to abandon one or more of such patent applications or patents or (ii) Assignee's intent to maintain such patent applications or patents. If Assignee notifies Assignor of Assignee's decision to abandon one or more of said patent applications or patents during such thirty (30) day period, Assignee shall promptly thereafter take all steps necessary to convey all right, title and interest in such patent applications or patents to Assignor.

AND for the same consideration, Assignor hereby represents and warrants to Assignee, its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, except for any rights, titles and/or interests that have arisen to Assignee under law or that have already been transferred to Assignee, Assignor is the sole and lawful owner of the entire right, title and interest in and to the Patents identified in Exhibit A-2 and Assignor and William Bryan Goodlin, as Executor for the Estate of James William Harris, Deceased, are the sole and lawful owners of the entire right, title and interest in and to the Patents identified in Exhibit A-1, that the same are unencumbered, and that the foregoing parties have good and full right and lawful authority to sell and convey the same in the manner herein set forth.

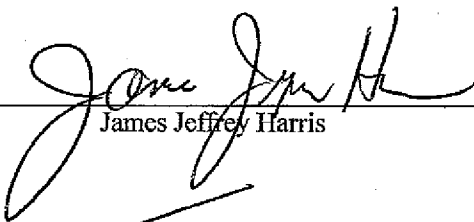

AND for the same consideration, Assignor hereby covenants and agrees to and with Assignee, its successors, legal representatives and assigns, that Assignor will sign all papers and documents, take all lawful oaths and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of any of the Patents, without charge, except for reasonable expenses, to Assignee, its successors, legal representatives and assigns, whenever counsel of Assignee, or counsel of its successors, legal representatives and assigns, shall advise: that any proceeding in connection with the Patents, or any proceeding in connection with any of the Patents in any country, including but not limited to interference

proceedings, is lawful and desirable; or, that any division, continuation or continuation-in-part of any of the Patents, or any reissue, reexamination or extension of any of the Patents, to be obtained thereon, is lawful and desirable.
