PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (the “Assignment”) is made this 7th day of May, 2008, by and between ISG Technologies Inc. (the “Assignor”), and Severstal Sparrows Point Holding LLC, a Delaware limited liability company (the “Assignee”).

RECITALS

WHEREAS, the Assignor, certain of its Affiliates, Joseph G. Krauss, solely in his capacity as the divestiture trustee appointed by the United States District Court for the District of Columbia pursuant to the Final Judgment, OAO Severstal, a Russian joint stock company, the Assignee, and SSP Railroad Holding LLC, a Delaware limited liability company, have entered into that certain Purchase and Sale Agreement, dated March 20, 2008 (together with the exhibits and schedules thereto, the “Purchase Agreement”); capitalized terms used but not defined herein shall have the meanings assigned to them in the Purchase Agreement; and

WHEREAS, pursuant to the Purchase Agreement, the Assignor has agreed to assign to Assignee all of Assignor’s right, title and interest in the patents and patent applications listed on the attached Schedule A (collectively, the “Patents”) and Assignee desires to acquire all of Assignor’s right, title and interest in, to and under the Patents.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

AGREEMENT

1. Assignment of Patents. Effective as of the Closing, for value received on and subject to the terms and conditions of the Purchase Agreement, Assignor hereby sells, assigns, transfers and delivers to the Assignee all of Assignor’s right, title and interest in the United States and all non-US countries, in, to and under the Patents and all divisions, renewals, substitutes, continuations and continuations-in-parts thereof, and all rights of priority including under the International Convention for the Protection of Industrial Property, the Inter-American Convention Relating to Patents, Designs and Industrial Models, and any other international agreements to which the United States adheres; including, without limitation, (i) all Letters Patent of the United States which may be granted thereon and all reissues, reexaminations and extensions thereof; (ii) all applications for Letters Patent which have been or may hereafter be filed for said Patents in any country or countries foreign to the United States; (iii) all Letters Patent which may be granted for said Patents in any country or countries foreign to the United States; and (iv) all income, royalties, damages, claims, and payments now or hereafter due or payable with respect thereto, and all causes of action (either in law or in equity) and the right to sue, counterclaim, and recover for past, present, and future infringement of the rights assigned to Assignee hereunder. Assignor hereby authorizes and requests the Commissioner of Patents of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents on applications as aforesaid, to record Assignee as the owner of

all such Patents and issue all Letter Patents for said Patents to the said Assignee, as assignee of the patent applications listed on Schedule A hereto, for the sole use of Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument.

2. No Representations. The Assignor makes no representations or warranties with respect to the Patents being sold, transferred, conveyed, assigned and delivered hereunder except for those representations and warranties made in the Purchase Agreement (subject to the limitations contained therein).

3. Entire Agreement. This Assignment is executed and delivered pursuant to the Purchase Agreement. The Purchase Agreement and this Assignment set forth the entire agreement and understanding of the parties with respect to the matters contemplated by the Purchase Agreement and this Assignment. Except as expressly set forth herein, nothing in this Assignment shall, or shall be deemed to, defeat, limit, alter, impair, enhance or enlarge any representation, warranty, right, obligation, claim or remedy created by the Purchase Agreement. In the event of any conflict between this Assignment and the Purchase Agreement, the Purchase Agreement shall control.

4. Parties Bound. This Assignment shall be binding upon and inure to the benefit of the Assignor and Assignee and their respective successors and permitted assigns.

5. Further Assurances. At the request and the sole expense of the requesting party, Assignor or Assignee, as applicable, shall execute and deliver, or cause to be executed and delivered, such documents as Assignor or Assignee, as applicable, or their respective counsel may reasonably request to further effectuate or evidence the transactions set forth in this Assignment.

6. Applicable Law. This Assignment shall be construed, performed and enforced in accordance with, and governed by, the laws of the State of New York (without giving effect to the principles of conflicts of laws thereof), except to the extent that the laws of such State are superseded by applicable federal law. The parties irrevocably elect, as the sole judicial forum for the adjudication of any matters arising under or in connection with this Assignment, and consent to the jurisdiction of, any state or federal court having competent jurisdiction over the Borough of Manhattan, New York, New York. Each of the parties hereby waives any right to trial by jury in any action or proceeding relating to this Assignment or any actual or proposed transaction or other matter contemplated in or relating to this Assignment.

7. Counterparts. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together will constitute a single instrument.
