Confirmatory Assignment

Townsend and Townsend and Crew LLP (the "Firm") is a California limited liability partnership having a principal place of business at Two Embarcadero Center, 8th Floor, San Francisco, California, 94111. Robert J. Proebsting ("Proebsting"), an individual now deceased, resided at 20765 Phoenix Lake Road, Sonoma, California 95370, and previously resided at 13737 Wallace Place, Morgan Hill, California 95037, and previous to that resided at 27800 Edgerton Road, Los Altos Hills, California 94022.

Prior to its registration as a limited liability partnership, the Firm was previously known as Townsend and Townsend and Crew, and previous to that was known as Townsend and Townsend Khourie and Crew. Prior to its current address, the Firm's principal place of business was at One Market Plaza, 20th Floor, Steuart Street Tower, San Francisco, California, 94105.

U.S. Application No. 08/297,723 entitled "Fast Voltage Equilibration of Complementary Data Lines Following Write Cycle in Memory Circuits" was filed on August 26, 1994, and was subsequently granted as U.S. Patent No. 5,453,951 on September 26, 1995 (the "Patent").

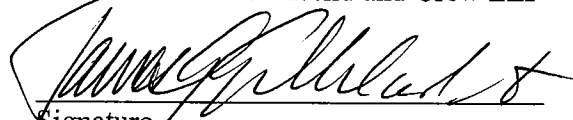

Proebsting on August 24, 1994 executed an assignment to the Firm of his entire right, title and interest in and to the Patent. The Firm was identified in this assignment as Townsend and Townsend Khourie and Crew, its then-current name. This assignment was recorded at Reel 007135 Frame 0296.

The Firm on June 3, 1999 executed an assignment to Proebsting of its entire right, title and interest in and to the Patent. This assignment was recorded at Reel 009996 Frame 0392. Although the Firm was mis-identified in this assignment document as Townsend and Townsend Khourie and Crew LLP (i.e., the name "Khourie" should not have been recited), the Firm understood the assignment document to be referring to the Firm.

Townsend and Townsend and Crew LLP hereby confirms that the above-identified assignment to Proebsting assigned its entire right, title and interest in and to the Patent to Proebsting as if such assignment had recited its then-current (and still current) name, and Townsend and Townsend and Crew LLP disclaims any right, title, and interest in and to the Patent.

Executed this 11th day of June, 2008.

Townsend and Townsend and Crew LLP
