LICENSE TO THE UNITED STATES GOVERNMENT

WHEREAS, Ian S. Trowbridge and Suhaila N. White of SALK INSTITUTE FOR BIOLOGICAL STUDIES have made an invention entitled MONOCLONAL ANTIBODIES REACTIVE WITH TRANSFER IN RECEPTOR CYTOPLASMIC DOMAIN and filed a patent application thereon in the United States on May 19, 1995, bearing Serial No. 08/444,418;

WHEREAS, the invention was conceived or first reduced to practice in the course of research supported by the Department of Health and Human Services;

WHEREAS, the United States Government is entitled to certain rights in and to said invention and application by reason of the terms of such support; and

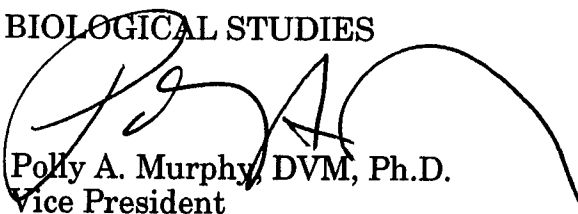

WHEREAS, SALK INSTITUTE FOR BIOLOGICAL STUDIES, hereinafter called the "Licensor" has acquired by assignment from the Salk inventors, the entire right, title and interest of the inventors to such invention.

NOW, THEREFORE

1. The Licensor in consideration of the premises and other good and valuable considerations, hereby grants and conveys to the United States Government, as represented by The Department of Health and Human Services, a royalty-free, nontransferable, non-exclusive and irrevocable license, including the power to grant sublicenses, to make and use and sell for any governmental purposes, and on behalf of any foreign government pursuant to any existing or future treaty or agreement with the United States of America, embodiments of the invention described in the aforesaid application and in any and all divisionals, continuations, and continuations-in-part thereof, and in any and all patents which may be granted thereon, and any and all reissues thereof, during the full term or terms thereof, and in any and all foreign counterpart applications and any and all patents which might be granted upon such foreign counterpart applications.
2. The Licensor covenants and warrants that he has the right to grant the foregoing License, and that any assignment which he may make of the invention or the said patent application or patents thereon, shall expressly be made subject to this License.
3. It is understood that principal rights to such invention will remain with the Licensor subject to the provisions of 37 C.F.R. §401 and 45 C.F.R. §8.
