ASSIGNMENT

WHEREAS, We, Andrew Philip CREW, Matthew COX, Radoslaw LAUFER, Neil Anthony PEGG, Colin Peter SAMBROOK SMITH, Yingchuan SUN, Robin David WILKES, and Jonathan WILLIAMS (hereinafter designated as the Undersigned individually and together) have invented an invention entitled: "N-Substituted Benzimidazolyl c-kit Inhibitors and Combinatorial Benzimidazole Library", for which we filed a provisional patent application in the United States of America on December 1, 2004 (Serial No. 60/632,432).

WHEREAS, OSI PHARMACEUTICALS, INC., a corporation of the State of Delaware, having its principal place of business at 58 South Service Road, Melville, New York 11747 U.S.A. (hereinafter designated as the Assignee) wishes to acquire the entire right, title and interest in and to this invention, and in and to any Patent(s) that may be granted therefore in all countries of the world, including the United States of America;

NOW THEREFORE, for valuable consideration to the Undersigned, the receipt and adequacy of which from the Assignee is hereby acknowledged, the Undersigned hereby sell, assign and transfer unto the Assignee, its lawful successors and assigns the entire and exclusive right, title and interest to this invention; and to any Patent(s) that may be granted therefor in the United States of America, any other countries in the world and their territories, dependencies and possessions; and to any and all divisions, reissues, continuations, conversions, re-examinations and extensions thereof for the full term or terms for which the same may be granted; and to the right to claim priority from said provisional application in all countries including under the Paris Convention for the Protection of Industrial Property or similar treaties and agreements.

The Undersigned agree to execute all lawful papers necessary in connection with this provisional application and any regular, continuing, divisional, conversion, re-examination or reissue applications derived there from and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient; and to execute all papers necessary in connection with any interference which may be declared concerning this provisional application or regular, continuing, divisional, conversion or reissue thereof or Patent(s) or reissue patent issued thereon; and to cooperate with the Assignee in every way possible in obtaining and producing evidence and proceeding with such interference.

The Undersigned agree to execute all papers and documents and to perform any act that may be necessary in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar treaties and agreements.

The Undersigned agree to perform all affirmative acts, including testifying in any legal proceeding or executing any document with respect to said invention, which may be necessary to obtain and maintain proper patent protection in any country for the Assignee and to vest all rights in such patent(s) to the Assignee as fully and entirely as would have been held by the Undersigned if this Assignment and sale had not been made; and to communicate to the Assignee, their successors and assigns, any facts known to us with respect to said invention.

The Undersigned hereby authorize and request the Patent and Trademark Office Officials in the United States of America and in any other countries to issue any and all Patents resulting from said provisional application, or any regular, continuing, divisional, conversion, re-examination or reissue applications thereof to the Assignee, as Assignee of the entire interest, including U.S. Patent Application No. _____ (Undersigned hereby authorizes attorney to fill in regular, continuing, and divisional application number(s) when known) and hereby covenants that the Undersigned have the full right to convey the entire interest herein assigned, and that have not executed, and will not execute, any agreement in conflict therewith.

The Undersigned hereby covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this agreement.

Inventor (Andrew Philip CREW)

Citizenship: BRITISH

Date: 11/16/05

Inventor's SIGNATURE: Andrew Crew
