ASSIGNMENT OF PATENTS

This Assignment of Patents is made as of January 31, 2008 by GREAT LAKES CHEMICAL CORPORATION, a Delaware corporation ("Assignor"), to E. I. DU PONT DE NEMOURS AND COMPANY, a corporation organized under the laws of Delaware ("Assignee").

PRELIMINARY STATEMENT

A. As of December 14, 2007, Chemtura Corporation, a Delaware corporation and the parent company of Assignor ("Chemtura"), Assignor and Assignee, entered into an Asset Purchase Agreement (the "Agreement") pursuant to which Chemtura and Assignor have agreed to sell to Assignee and Assignee has agreed to buy from Chemtura and Assignor the Transferred Assets (as defined in the Agreement), including all patents and patent applications (U.S. and foreign) of Assignor relating exclusively to the Business. Pursuant to the Agreement, Assignor has agreed to execute such instruments of assignment as Assignee may reasonably request.

B. Assignor desires to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignor's worldwide right, title and interest in and to Assignor's patents and patent applications listed in Schedule A attached hereto and all divisional, continuing, continuation-in-part, and reissue applications therefor, and the patents which may be thereupon issued, including any and all rights to file such divisional, continuing, continuation-in-part, and reissue applications and receive patents which may be thereupon issued, in all countries of the world (all of the foregoing being referred to herein as the "Patents").

AGREEMENT

Assignor, for and in acknowledgement of receipt of the consideration set forth in the Agreement, hereby transfers and assigns to Assignee, and Assignee hereby accepts the transfer and assignment of, all of Assignor's worldwide right, title and interest in, to and under the Patents, and all causes of action, rights of recovery and claims for damages and other relief referring or pertaining to the Patents, including claims for past and future infringement, that may hereafter be secured under the laws now or hereafter in effect in all countries of the world, the same to be held and enjoyed by Assignee, its successors and assigns as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

Except to the extent that federal law preempts state law with respect to the matters covered by this Assignment, it will be governed by and construed under the laws of the state of New York without regard to conflicts of laws principles that would require the application of any other law.
