ASSIGNMENT OF UNITED STATES PATENT  
APPLICATION

Whereas, Mr. Daniel Wacholder, a United States Citizen of 2471 Laguna Canyon Road, Laguna Beach, CA 92651; (hereinafter referred to as "ASSIGNOR") has invented certain new and useful improvements (hereinafter referred to as "Invention") which are covered by the following United States patent application under Docket No.BLK-106, the details of which Attorney for Applicant is authorized to insert in the spaces below, when known:

U.S. Utility Patent Application Serial No.:

filed:

entitled: TILT MACHINING DEVICE AND METHOD

priority: None

Whereas John Blick, a United States Citizen of 2465 Laguna Canyon Road, Laguna Beach, CA 92651 (hereinafter referred to as "ASSIGNEE"), and who is also an inventor of the above invention, wishes to acquire all of ASSIGNOR's rights, title and interest of the Invention, and will result in ASSIGNEE's holding 100% of all of the rights title and interest of all of the Inventions related to the above invention, U.S. and related patent applications world-wide and, and the world-wide patents issuing therefrom;

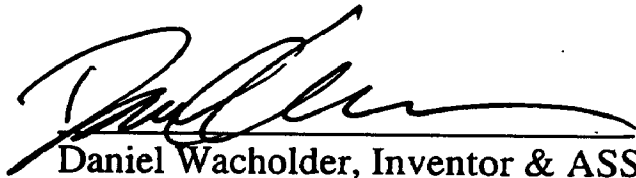

Now, therefore, in consideration of the sum of Ten Dollars (\$10.00) and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, said ASSIGNOR has sold, assigned, and transferred and by these presents does sell, assign, and transfer unto ASSIGNEE and to

its successors, legal representatives and assigns, the entire right, title and interest in and to said Invention and in and to said patent application for the territory of the United States of America and for all foreign countries, said Invention and patent application to be held and enjoyed by ASSIGNEE for his own use and enjoyment and for the use and enjoyment of his successors and assigns, to the full end of the term for which U.S. Letters Patent on same will be granted, as fully and entirely as the same would have been held by all of the Inventors of the invention had this Assignment and sale not been made, and the same as if ASSIGNEE was a sole inventor. By this Assignment, ASSIGNOR relinquishes all claims to the invention and will own no part of the invention or of any rights relating in any way to the invention.

Said ASSIGNOR hereby covenants that he has the full right to convey the interest herein assigned, and that he has not executed, and will not execute, any agreement in conflict herewith.

Said ASSIGNOR further covenant and agree that he will communicate to ASSIGNEE and to his successors, legal representatives and assigns, any facts known to him respecting said Inventions and testify in any legal proceeding, sign all applications, make all rightful oaths, and generally do everything possible to aid ASSIGNEE and its successors, legal representatives, and assigns, to obtain and enforce proper patent protection for said Invention in all countries.
