ASSIGNMENT

THIS ASSIGNMENT is by Daniel Luch (the "Assignor(s)"). I/We, Assignor(s) have invented one or more certain inventions (the "Invention(s)") described in a United States Patent Application entitled **SUBSTRATE AND COLLECTOR GRID STRUCTURES FOR INTEGRATED PHOTOVOLTAIC ARRAYS AND PROCESS OF MANUFACTURE OF SUCH ARRAYS** (the "Application") bearing Application No. 11/404,168 filed on April 13, 2006.

Solannex, LLC, a Delaware corporation, having a place of business at P.O. Box 223777, Carmel, CA 93922 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which is acknowledged, Assignor(s) hereby sell(s), assign(s), and transfer(s) to Assignee, its successors, legal representatives and assign(s), the entire right, title and interest in and to: the Inventions, the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor(s) warrant(s) that Assignor(s) is/are the sole owner(s) of the Rights, and that the Rights are unencumbered. Assignor(s) also agree(s) to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor(s) request(s) the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

Date:

June 25, 2008
