LICENSE TO THE UNITED STATES GOVERNMENT

WHEREAS, George Peeters & William Barry, of Salt Lake City, Utah, have invented Device & Method for Simultaneous Measurement of Calcium Transients & Motion in Cells and filed a patent application thereon in the USA bearing Serial No. 073,955, filing date July 15, 1987; and

WHEREAS, the invention was made in the course of research supported by the Department of Health and Human Services; and

WHEREAS, the United States Government is entitled to certain rights in and to said invention and application by reason of the terms of such support; and

WHEREAS, the UNIVERSITY OF UTAH, hereinafter called the "Licensor" has acquired by assignment from the inventor the entire right, title and interest of the inventor to such invention;

NOW, THEREFORE

1. The Licensor, in consideration of the premises and other good and valuable consideration, hereby grants and conveys to the United States Government a royalty-free, nonexclusive and irrevocable license for governmental purposes and on behalf of any foreign government pursuant to any existing or future treaty or agreement with the United States under the aforesaid patent application, and any and all divisions or continuations, and in any and all patents or reissues which may be granted thereon during the full term or terms thereof. As used herein, "governmental purpose" means the right of the Government of the United States, including any agency thereof, to practice and have practiced (made or have made, used or have used, sold or have sold) in connection with programs funded in whole or in part by the Federal Government throughout the world by or on behalf of the Government of the United States.

2. The Licensor covenants and warrants that he has the right to grant the foregoing license, and that any assignment which he may make of the invention or the said patent applications or patents thereon, shall expressly be made subject to this license.

3. The Licensor agrees that the Government shall not be estopped at any time to contest the enforceability, validity, scope of, or title, to, any patent or patent application herein licensed.

UNIVERSITY OF UTAH

James J. Brophy
