Said assignment includes all applications and patents to be obtained for said inventions by any non-provisional, continuation, continuation-in-part, division, renewal, substitute, re-issue or re-examination applications, and the right to claim priority therefrom.

ASSIGNOR further covenants that ASSIGNEE will, upon its request, be provided promptly with all pertinent facts and documents relating to said invention and said Letters Patent and legal equivalents as may be known and accessible to ASSIGNOR and will testify as to the same in any interference, litigation or proceeding related thereto at ASSIGNEE's expense, and will promptly execute and deliver to assignee or its legal representatives any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents thereof which may be necessary or desirable to carry out the purposes thereof.
