ASSIGNMENT

WHEREAS, we, Mark T. Montgomery, Frank M. Caimi, and Mark W. Kishler, are inventors of certain new and useful inventions and discoveries, which are disclosed in a patent application entitled MULTIMODE ANTENNA STRUCTURE, also identified by Attorney Docket Number SCS-003CIP, the specification of which was filed with the United States Patent and Trademark Office on April 8, 2008 and has been assigned application number 12/099,320.

WHEREAS, SkyCross, Inc., a corporation, whose address is 7341 Office Park Place, Suite 102, Viera, Florida 32940, together with its successors and assigns (hereinafter called "ASSIGNEE") desires to acquire the title, rights, benefits, and privileges hereinafter recited.

NOW, THEREFORE, for and in consideration of good and valuable consideration furnished by ASSIGNEE to us, receipt and sufficiency of which we hereby acknowledge, we hereby without reservations:

1. Assign, transfer, and convey to ASSIGNEE the entire right, title, and interest in and to said inventions and discoveries, all improvements therein, said application and all priority rights arising therefrom, and including any patents issuing therefrom, divisional or continuation applications, reissuances or extensions thereof and foreign counterparts thereto and any other patents and patent applications claiming priority from the foregoing (including divisionals, continuations, continuation-in-parts, or as an application claiming priority from a provisional application); or any application based in whole or in part on any of the foregoing;
2. Authorize ASSIGNEE to file patent applications in any or all countries on any or all of said inventions and discoveries in our name or in the name of ASSIGNEE or otherwise as ASSIGNEE may deem advisable, under International Conventions or otherwise;
3. Authorize and request the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments throughout the world to issue or transfer all said patents to ASSIGNEE, as assignee of the entire right, title, and interest therein or otherwise as ASSIGNEE may direct;
4. Warrant that we have not knowingly conveyed to others any right in said inventions, discoveries, applications, or patents, or any license to use the same, or to make, use, or sell anything embodying or utilizing any of said inventions or discoveries; and that we have good right to assign the same to ASSIGNEE without encumbrance;
5. Bind our heirs, legal representatives, and assigns, as well as ourselves, to do, upon ASSIGNEE's request and at ASSIGNEE's expense, but

without additional consideration to us or them, all acts reasonably serving to assure that said inventions and discoveries, said patent applications, and said patents shall be held and enjoyed by ASSIGNEE as fully and entirely as the same could have been held and enjoyed by us, our heirs, legal representatives, and assigns if this Assignment had not been made; and particularly to execute and deliver to ASSIGNEE all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by ASSIGNEE; and to communicate to ASSIGNEE all facts known to us relating to said inventions and discoveries or the history thereof, and to testify as to the same in any court or proceeding; and to furnish ASSIGNEE any and all documents, photographs, models, samples, and other physical exhibits in our control or in the control of our heirs, legal representatives, or assigns that may be useful for establishing the facts of our conceptions, disclosures, and reduction to practice of said inventions and discoveries.

IN TESTIMONY WHEREOF, I have hereunto set my hand and seal.
