PATENT/APPLICATION ASSIGNMENT

WHEREAS, R.R. Street & Co. Inc., a corporation organized and existing under the laws of the State of Delaware, having its principal office and place of business at 184 Shuman Boulevard, Naperville, Illinois 60563-8464 (Assignor), is the owner of the entire right, title and interest in the Patents and Applications listed in the attached Schedule A, and the inventions covered thereby.

WHEREAS, MHF Corporation, a corporation organized and existing under the laws of the State of Delaware, having its principal office and place of business at 184 Shuman Boulevard, Naperville, Illinois 60563-8464 (Assignee), has agreed to acquire from Assignor all of Assignor's right, title and interest in and to the referenced patents and applications, and Assignor has agreed to transfer to Assignee all of Assignor's right, title and interest in and to the above-referenced patents and applications.

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and convey to Assignee, its legal representatives, successors and assigns, Assignor's entire right, title and interest in and to, and the use of, the referenced patents and applications, and all utility, divisionals, continuations including continuations-in-part and request for continued examination (RCE), and reissues thereof, together with all rights, interests and obligations running toward or granted to Assignor under any previously executed assignment agreements between the inventor of each invention embodied in the referenced patents and applications and Assignor or any of its predecessors in title, and together with any and all claims and demands Assignor or its predecessors may have, at law or in equity, whether presently known, unknown, accrued or to accrue, arising out of past or present infringements of the patents and any subsequently issued patents, including the right to recover all claims for damages and compensation. Such right, title and interest shall be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made.

Assignor hereby further sells and assigns to Assignee its foreign rights to the inventions in all patent granting countries of the world, including the right to file applications or to obtain patents for said inventions in its own name in the countries under the terms of the Paris Convention for the Protection of Intellectual Property, together with all of Assignor's rights of priority and all other rights under any and all international agreements to which the United States adheres. Assignor hereby authorizes and requests any official, whose duty it is to issue in any country a patent or patents on the inventions or improvements, to issue patent or patents to Assignee or its nominees, successors or assigns.

Assignor hereby further agrees that it will promptly execute and deliver to Assignee, its successors or assigns, or its legal representatives, any and all papers, instruments or affidavits that may be required to effect the intent of this assignment or to vest in Assignee, its successors or assigns, full right, title, and interest in and to the referenced patents and applications or to maintain and enforce the above-referenced patents and applications. This instrument shall be binding upon Assignor, its successors and assigns, and shall inure to the benefit of Assignee, its successors and assigns.
