## ASSIGNMENT

This Assignment is made by DigiPen Corporation, having a principal place of business at 5001 150<sup>th</sup> Avenue NE, Redmond, Washington 98052 (“*Assignor*”).

WHEREAS, Assignor has an ownership interest in certain new and useful inventions evidenced by certain patent applications set forth in *Exhibit A* hereto (together with any and all patents that may issue or be granted from such patent applications, the “*Inventions*”); and

WHEREAS, the parties desire to have a recordable instrument assigning the Assignor’s entire right, title and interest in and to said Inventions in the United States and throughout the world.

NOW, THEREFORE, in accordance with Assignor’s obligations to assign the Inventions and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to The Boeing Company, a corporation organized and existing under the laws of the State of Delaware (“*Assignee*”), the entire right, title, and interest in and to said Inventions in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

For the avoidance of doubt, notwithstanding anything to the contrary in this Assignment, this Assignment does not convey any rights to (i) Assignor’s high level programming language, known as “HLPL,” including the libraries, routines, language and underlying technology associated therewith, or (ii) to any of Assignor’s technology or intellectual property in existence prior to January 31, 2005.

Assignor agrees that, upon request, it will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary for obtaining, sustaining, reissuing, or enforcing the Inventions in the United States and throughout the world, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said Inventions in the United States and throughout the world.

Assignor authorizes and requests the duly authorized officials of the United States and of all foreign countries to take such action as may be required to give effect to the sale, assignment and transfer made herein, including the issuance of any patent applications on *Exhibit A* to Assignee, its successors and assigns, and to issue any patents granted for the patent applications described in *Exhibit A*, whether subsequently filed or otherwise, to Assignee, its successors and assigns, as the assignee of the entire interest in said Inventions.
