ASSIGNMENT OF PATENT RIGHTS

For valuable consideration, the receipt and sufficiency of which is hereby acknowledged, on this 25th day of August, 2008, Douglas C. Burger, residing in Redmond, Washington, Stephen W. Keckler, residing in Austin, Texas, Karthikeyan Sankaralingam, residing in Madison, Wisconsin, and Ramadass Nagarajan, residing in Portland, Oregon ("Assignors"), hereby sell, assign, and transfer to Board of Regents, University of Texas System with offices at The University of Texas at Austin, 3925 West Braker Lane, Suite 1.9A, Austin, Texas 78759 ("Assignee"), the full extent of all right, title, and interest in and to any and all of the following (collectively, the "Rights"):

1. U.S. Provisional Patent Application Serial No. 60,334,764 filed on October 31, 2001 ("the Provisional Patent Application");
2. PCT Application PCT/US02/34965 filed on October 31, 2002 ("the PCT Application");
3. U.S. Patent Application Serial No. 10/829,668 filed on April 22, 2004 is a continuation patent application of the PCT Application ("the Continuation Patent Application");
4. U.S. Divisional Patent Application Serial No. 12/136,645 entitled "A Scalable Processing Architecture" filed on June 10, 2008 is a divisional patent application of the Continuation Patent Application (the "Divisional Patent Application");
5. All inventions claimed or described in any or all of the Provisional Patent Application, the PCT Application, the Continuation Patent Application and the Divisional Patent Application (collectively, "the Inventions");
6. All rights with respect to the Inventions, including all U.S. patents or other governmental grants or issuances that may be granted with respect to the Inventions or from any direct or indirect divisionals, continuations, continuations-in-part, or other patent applications claiming priority rights from the Provisional Patent Application, the PCT Application, the Continuation Patent Application or the Divisional Patent Application ("Potential Patents");
7. All reissues, reexaminations, extensions, or registrations of the Potential Patents;
8. All non-United States patents, patent applications, and counterparts relating to any or all of the Inventions, the Provisional Patent Application, the PCT Application, the Continuation Patent Application, the Divisional Patent or Potential Patents, including, without limitations, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances ("Foreign Rights"), and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
9. The right to claim priority rights deriving from the Provisional Patent Application, the PCT Application, the Continuation Patent Application and the Divisional Patent Application;

10. All causes of action and remedies related to any or all of the Provisional Patent Application, the PCT Application, the Continuation Patent Application, the Divisional Patent Application, the Inventions, and Potential Patents, or Foreign Rights (including, without limitation, the right to sue for past, present, or future infringement, misappropriation or violation of rights related to any of the foregoing and the right to collect royalties and other payments under or on account of any of the foregoing); and

11. Any and all other rights and interests arising out of, in connection with, or in relation to the Provisional Patent Application, the PCT Application, the Continuation Patent Application, the Divisional Patent Application, the Inventions, Potential Patents or Foreign Rights.

Assignors will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives, and assigns deem necessary or desirable to perfect enjoyment of the Rights, conduct proceedings regarding the Rights (including any litigation or interference proceedings), or perfect or defend title to the Rights. Assignors request the respective patent office or government agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives, and assigns and will be binding upon Assignors, their successors, legal representatives and assigns.
