PATENT ASSIGNMENT

THIS AGREEMENT is dated as of August 26, 2008.

WHEREAS, Thomson Reuters (Tax & Accounting) Inc., a Texas corporation ("Assignee"), is desirous of acquiring all right, title and interest in and to said Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby assign unto Assignee, its successors and assigns, all of its right, title and interest, whether statutory or at common law, in and to the Patents, together with all the goodwill of the business symbolized by the Patents in the United States and all countries throughout the world, and together with the right to sue and collect damages and/or profits for past infringements of the Patents, the intent hereof being to substitute Assignee in the place of Assignor.

Assignor further authorizes the Commissioner of Patents and Trademarks of the United States whose duty it is to record patent registrations, applications and title thereto, to record the Patents and title thereto as the property of Assignee, its successors, legal representatives and assigns in accordance with the terms of this Agreement.

This Agreement may be executed in several counterparts, each of which shall be deemed an original, but all of which together will constitute one and the same instrument. Counterparts of this Agreement (or applicable signature pages hereof) that are manually signed and delivered by facsimile transmission shall be deemed to constitute signed original counterparts hereof and shall bind the parties signing and delivering in such manner.
