ASSIGNMENT

I, Michael E. Moore, have invented certain inventions and improvements disclosed in the patents and patent applications listed in Exhibit A hereto ("the Patents").

A. The Previously Assigned Patents

Previously, for good and valuable consideration, the receipt and sufficiency of which I have acknowledged and hereby reaffirm, I have assigned to Zodiac Pool Care Europe, Zodiac Pool Care Inc., or a predecessor-in-interest to either of these companies (collectively the "Zodiac Entities"), all of my worldwide right, title, and interest in and to at least many of the Patents (the "Previously Assigned Patents"), the inventions disclosed in the Previously Assigned Patents, any patents issuing from the patent applications of the Previously Assigned Patents, and any divisional, reissue, counterpart, or continuation applications of the Previously Assigned Patents. I also have assigned to one or more of the Zodiac Entities the right to file in its name any applications of the Previously Assigned Patents and the right to claim priority rights deriving from any of the Previously Assigned Patents for any other applications as permitted by international convention, treaty, or otherwise. The entirety of the rights I have assigned to the Zodiac Entities in connection with the Previously Assigned Patents is hereinafter referred to as "the Previously Assigned Rights."

B. The Currently Assigned Patents

I may not yet have assigned to any of the Zodiac Entities my worldwide right, title, and interest in and to some of the Patents (the "Not Previously Assigned Patents"). To the extent there are any Not Previously Assigned Patents, I hereby assign to Zodiac Pool Care Europe, for the sum of ten U.S. dollars (US\$10) and other good and valuable

consideration, the receipt and sufficiency of which I hereby acknowledge, all of my worldwide right, title, and interest in and to the Not Previously Assigned Patents, the inventions disclosed in the Not Previously Assigned Patents, any patents issuing from the patent applications of the Not Previously Assigned Patents, and any divisional, reissue, counterpart, or continuation applications of the Not Previously Assigned Patents. I also assign to Zodiac Pool Care Europe the right to file in its name any applications of the Not Previously Assigned Patents, the right to claim priority rights deriving from any of the Not Previously Assigned Patents for any other applications as permitted by international convention, treaty, or otherwise, and all right to sue for past infringement of any patents of the Not Previously Assigned Patents. The entirety of the rights I hereby assign to Zodiac Pool Care Europe in connection with the Not Previously Assigned Patents is hereinafter referred to as "the Not Previously Assigned Rights."

C. The Catch-All Assignment

By virtue of my direct or indirect relationships with the Zodiac Entities, Format Services Ltd., or otherwise, I may have contractual or other legal obligation to assign certain inventions and improvements (the "Obligated to Assign Inventions") to one or more of the Zodiac Entities. Although the Zodiac Entities have attempted to provide, in Exhibit A, a complete list of patents and patent applications of the Obligated to Assign Inventions, it is possible the list is incomplete. Thus, as to any Obligated to Assign Inventions omitted from Exhibit A and not already assigned by me to any of the Zodiac Entities, I hereby assign to Zodiac Pool Care Europe, for the sum of ten U.S. dollars (US\$10) and other good and valuable consideration, the receipt and sufficiency of which I hereby acknowledge, all of my worldwide right, title, and interest in and to the Obligated to Assign Inventions, any patent

applications disclosing the Obligated to Assign Inventions, any patents issuing from the patent applications disclosing the Obligated to Assign Inventions, and any divisional, reissue, counterpart, or continuation applications of the patents and patent applications disclosing the Obligated to Assign Inventions. I also assign to Zodiac Pool Care Europe the right to file in its name any applications disclosing the Obligated to Assign Inventions, the right to claim priority rights deriving from any of the patent applications disclosing the Obligated to Assign Inventions for any other applications as permitted by international convention, treaty, or otherwise, and all right to sue for past infringement of any patents issued from patent applications disclosing the Obligated to Assign Inventions. The entirety of the rights I hereby assign to Zodiac Pool Care Europe in connection with the Obligated to Assign Inventions is hereinafter referred to as "the Obligated to Assign Rights." The Previously Assigned Rights, the Not Previously Assigned Rights, and the Obligated to Assign Rights are hereinafter referred to collectively as the "Rights."

I agree, in behalf of myself, my heirs, legal representatives, administrators, and assigns and without further consideration, to execute any and all applications, petitions, oaths, and assignments or other papers and instruments which may be necessary in order to carry into full force and effect the assignments of the Rights previously or hereby made or intended to be made.

[signatures appear on following page]

In witness of the foregoing, I hereby execute this Assignment, under seal, as of

1ST APRIL, 2008.

Michael E. Moore
