Exhibit A
Form of Patent Assignment

PATENT ASSIGNMENT

For good and valuable consideration paid, the receipt, adequacy and sufficiency of which are hereby acknowledged, COMBUSTION SCIENCE & ENGINEERING, INC., a Maryland corporation ("**Combustion Science**"), hereby assigns, transfers and sets over to SafeAwake, LLC, a Delaware limited liability company ("**SafeAwake**"), absolutely and forever as of the date hereof, all of Combustion Science's right, title and interest in and to the patents and patent applications listed on Schedule 1 attached hereto and in and to any and all Letters Patent which may be granted therefor in the United States, its territorial possessions and in any and all foreign countries, and to the registrations thereon and applications therefor, and to any and all divisions, continuations, continuations-in-part, substitutions, renewals, reexaminations, extensions and reissues thereof, and all subject matter disclosed therein, including the right to file for protection of such subject matter in the United States of America and every other country in the world, as well as all causes of action and rights to injunctive relief, damages or profits, due or accrued, arising out of past infringement of the Patent, and the right to sue for, receive and retain the same in SafeAwake's name, and to record said assignment in the pertinent patent offices anywhere.

Combustion Science agrees to diligently execute any and all documents reasonably necessary to record and effect this Assignment in all relevant patent offices anywhere.

Combustion Science hereby authorizes and requests the Patent Office Officials in the United States and its territorial possessions and in any and all foreign countries to issue any and all of said Letters Patent, when granted, to SafeAwake as the assignee of the entire right, title and interest in and to the same, for the sole use and behalf of SafeAwake and SafeAwake's successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by Combustion Science had this assignment and sale not been made.

This Assignment is made pursuant to that certain Asset Assignment and License Agreement dated as of 2nd day of September, 2008 between Combustion Science and SafeAwake, whereby Combustion Science has agreed to assign to SafeAwake the rights and property described above.

IN WITNESS WHEREOF, this Patent Assignment has been executed effective as of September 12, 2008
