## ASSIGNMENT

**WHEREAS** we, James Matthew Collins, Mark James Fisher, John Grimley, John Michael O'Fallon, Craig Field Sampson and James G. Tappel, together with Timothy D. Byland and Mehran Mojarad, have made an invention which is the subject of patent applications entitled NEEDLE-FREE INJECTION DEVICE, filed with the United States Patent and Trademark Office on December 20, 2005, as application Serial No. 60/752,063 and PCT Application Serial No. PCT/US2006/048422 filed on December 19, 2006 (hereinafter the "Applications"). I (we) hereby grant the firm of Wood, Herron & Evans, L.L.P., the power to insert in this Assignment any further identification or information, including Serial No. and/or Filing date in spaces above, which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

**WHEREAS IDEO INC.**, a Michigan corporation having a place of business at 100 Forest Avenue, Palo Alto, California 94301, wishes to acquire our entire right, title and interest in the Applications and in all inventions disclosed in the Applications;

**NOW, THEREFORE**, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, we hereby sell, assign, transfer and set over unto IDEO INC., its successors and assigns (collectively "IDEO") our entire right, title and interest in, to and under the Applications and in all inventions disclosed therein; all rights of priority thereto pursuant to the International Convention for the Protection of Industrial Property; any and all present or future patent applications to such inventions that may be filed in the United States or any foreign country, inclusive of, but not limited to, continuations, continuations-in-part, divisions, substitutions, reexaminations, reissues, international applications under the Patent Cooperation Treaty ("PCT"), United States provisional patent applications, certificates of addition, utility models, petty patents, as well as all other intellectual property related to the Applications, inclusive of, but not limited to, supplementary protection certificates, copyrights, trademarks, and data package exclusivity rights; and any and all Letters Patent of the United States and of all foreign countries and all related patent term extensions which may be granted for Letters Patent with respect to the Applications; all of the above to be held and enjoyed by IDEO for its own use and enjoyment to the full end of the term or terms for which such Letters Patent and related intellectual property rights may be granted, as fully and entirely as the same would have been held and enjoyed by us had this Assignment and sale to IDEO not been made.

For ourselves and for our heirs, successors and legal representatives, we covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment.

For ourselves and for our heirs, successors and legal representatives, we further covenant and agree with IDEO that upon request we and they will, without further consideration than that now paid, but at the expense of IDEO: (i) execute original, provisional, substitute, continuation, divisional, continuation-in-part, reexamined, or reissued applications, amended specifications, or rightful declarations or oaths for such applications;
