WHEREAS, Assignee is desirous of acquiring one-third (33.33%) of the entire right, title and interest in and to said Invention and Letters Patent of the United States and Letters Patent in any and all foreign countries which may be obtained therefore, thereby leaving each Assignor with 1/3 (33%) of the right, title and interest in and to said Invention and Letters Patent of the United States and Letters Patent in any and all foreign countries which may be obtained therefore;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Assignors jointly and equally do hereby sell, assign, transfer and set over unto said Assignee, its successors, assigns and legal representatives, **1/3 (33.33%)** of the entire right, title and interest in and to said Invention, as described in United States design patent application about to be filed in the United States Patent and Trademark Office on August 18, 2008 and given Serial No. 29/323,091 and entitled Anchor Set Tool and in and to all patents of the United States and in any and all foreign countries which may be issued for said Invention, and in and to all patent applications, continuations, continuations-in-part, divisionals, reexaminations and reissues of said Invention as described in the above-mentioned application in the United States and in any and all foreign countries, as fully and completely as the same would have been held by me had this Assignment and sale not been made, together with all claims for damages by reason of past infringement with the right to sue for and collect the same and obtain all other possible remedies for its own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives. The said 1/3 (33.33%) of the entire right title and interest shall vest irrevocably in said Assignee.
