ASSIGNMENT

Whereas, the undersigned Inventors have respectively made certain inventions, improvements, and discoveries (herein referred to as the "Invention") in:

VARIABLE CPAP RESPIRATORY INTERFACE

and further identified by the Docket Number provided above in the header of this Assignment, for which an application for a United States Patent was filed having:

Application Serial Number 11/824,804; filed on 07/03/2007; claiming priority to U.S. Provisional Patent Application No. 60/818,687 filed on 07/25/2006

Whereas, Mergenet Medical, Inc., a Corporation of the State of Nevada, having its principal place of business at 6601 Lyons Road, Suite B1-B4, Coconut Creek, Florida 33073 (herein referred to as "Mergenet"), desires to acquire, and the undersigned Inventors desire to grant to Mergenet, the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications and patents directed thereto;

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, the undersigned Inventors ("ASSIGNOR") hereby sell, assign, and otherwise transfer to Mergenet (the "ASSIGNEE"), its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the Invention, the above-identified United States patent application, and any and all other patent applications and patents for the Invention which may be applied for or granted therefor in the United States and in all foreign countries and jurisdictions, including all divisions, continuations, reissues, reexaminations, renewals, extensions, counterparts, substitutes, and extensions thereof, and all rights of priority resulting from the filing of such applications and granting of such patents. In addition, the undersigned Inventors hereby authorize and request the Director of the United States Patent and Trademark Office to issue any United States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to Mergenet, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the same to be held and enjoyed by Mergenet, its successors, legal representatives, and assign to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the undersigned had this Assignment not been made; and the undersigned Inventors agree to execute any and all documents and instruments and perform all lawful acts reasonably related to recording this Assignment or perfecting title to the Invention and all related patents and applications, in Mergenet, its successors, legal representatives, and assigns, whenever requested by Mergenet, its successors, legal representatives, or assigns.

The undersigned Inventors acknowledge their prior and ongoing obligation to sell, assign, and transfer the rights under this Assignment to Mergenet and are unaware of any reason why they may not have the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred, and have not executed, and will not execute, any document or instrument in conflict herewith. The undersigned Inventors also hereby grant Mergenet, its successors, legal representatives, and assigns, the right to insert in this Assignment any further identification (including, but not limited to, patent application Serial Number 11/824,804) which may be necessary or desirable for recordation of this Assignment.
