DeMont &amp; Breyer Docket: 711-021US

IN THE UNITED STATES  
PATENT AND TRADEMARK OFFICE  
Assignment and Agreement

For value received, Lockheed Martin MS2, having an office at Manassas, VA, hereby sells, assigns and transfers to Lockheed Martin Corporation, having an office at 6801 Rockledge Drive, Bethesda, MD, and its successors, assigns and legal representatives, the entire right, title and interest, for the United States of America, in and to certain inventions related to **Diagnostic System and Method for Transducers** described in DeMont & Breyer's Attorney Docket as **711-021US**, Serial Number **10/786497**, filed on **February 25, 2004**, and all the rights and privileges in said application and under any and all Letters Patent that may be granted in the United States for said inventions; and Lockheed Martin MS2 also concurrently hereby sells, assigns and transfers to Lockheed Martin Corporation the entire right, title and interest in and to said inventions for all countries foreign to the United States, including all rights of priority arising from the application aforesaid, and all the rights and privileges under any and all forms of protection, including Letters Patent, that may be granted in said countries foreign to the United States for said inventions.

Lockheed Martin MS2 authorizes Lockheed Martin Corporation to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States, and to invoke and claim for any application for patent or other form of protection for said inventions, without further authorization from Lockheed Martin MS2, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

Lockheed Martin MS2 hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Lockheed Martin Corporation to apply for patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.

Lockheed Martin MS2 requests that any and all patents for said inventions be issued to Lockheed Martin Corporation in the United States and to Lockheed Martin Corporation in all countries foreign to the United States, or to such nominees as they may designate.

Lockheed Martin MS2 agrees that, when requested, it shall, without charge to Lockheed Martin Corporation but at its expense, sign all papers, and do all acts which may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection.
