ASSIGNMENT OF PATENT RIGHTS

For valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Alcatel-Lucent Canada Inc.**, a corporation established and existing under the laws of Canada and having its principal place of business at 600 March Road, Ottawa, Ontario, K2K 2E6, Canada ("Assignor") does hereby sell, assign, transfer and convey unto **Alcatel Lucent**, a corporation established and existing under the laws of France and having its principal place of business at 54, rue La Boétie, 75008 Paris, France ("Assignee"), all of Assignor's right, title and interest, for all countries, jurisdictions and political entities of the world, in and to any and all of the following (collectively the "Rights"):

- (a) The invention relating to:

Stackable Virtual Local Area Network Provisioning in Bridged Networks

Case Reference No. 137570-US

(the "Invention")

as described in a patent application filed in the **United States of America** on **August 27, 2002** and given serial number **10/227,863**;

- (b) The aforesaid patent application, and all patents that may be granted or issue with respect to the inventions claimed or described therein (the "Patent(s)"), and all patents and patent applications for which any of the Patents directly or indirectly forms a basis for priority;
- (c) All reissues, requests for continuing examinations, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, divisions, or registrations of, any item in any of the foregoing categories (a) and (b);
- (d) All corresponding patents, patent applications, and geographical counterparts, relating to any item in any of the foregoing categories (a) through (c), including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental or inter-governmental grants or issuances (such as, but not limited to, European patents granted by the European Patent Office), and including all rights to file such corresponding applications directly in the name of Assignee;
- (e) The right to claim priority rights deriving or arising from any item in any of the foregoing categories (a) through (d) and for Assignee to otherwise avail itself of the provisions of the international conventions governing the protection of inventions;

- (f) All causes of action (whether known or unknown or whether currently pending, filed, or otherwise), remedies and other enforcement rights related to any item in any of the foregoing categories (a) through (e) (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to any item in any of the foregoing categories (a) through (e));
- (g) All rights to collect royalties and other payments under or on account of any item in any of the foregoing categories (a) through (f); and
- (h) Any and all other rights and interests arising out of, in connection with, or in relation to any item in any of the foregoing categories (a) through (g),

with respect to which, and to the extent to which, Assignor had or acquired the right to so sell, assign, convey, transfer and deliver.

Assignor requests the respective patent office or governmental agency in each jurisdiction to grant or issue any and all letters patents, certificates of invention, utility models or other governmental or inter-governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the Assignee to the entire interest therein.

The terms and conditions of this Assignment Of Patent Rights will inure to the benefit of Assignee, its successors or assigns, and anyone properly designated by them and will be binding upon Assignor, its successors or assigns, and anyone properly designated by them.
