PATENT
REEL: 021669 FRAME: 0012

ASSIGNMENT

WHEREAS, Paul T. Lin, hereinafter called the "Assignor," owns the entire right, title and interest in and to U.S. Patent No. 7,408,253, titled "Chip-embedded support-frame board wrapped by folded flexible circuit for multiplying packing density" (the "Lin Patent"); and

WHEREAS, Lin Packaging Technologies, Ltd., hereinafter called "Assignee," is desirous of acquiring the entire right, title and interest in and to the Lin Patent as more fully set forth below.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, be it known that for valuable and legally sufficient consideration, the receipt of which by the Assignor from the Assignee is hereby acknowledged, the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer unto the Assignee, his successors and assigns, the entire right, title and interest in and to the Lin Patent, and all divisions, continuations, continuations-in-part, reissues, substitutions, reexaminations, and extensions thereof, including the right to recover for past damages, to have and to hold for the sole and exclusive use and benefit of the Assignee, his successors and assigns to the full end of the term of the Lin Patent.

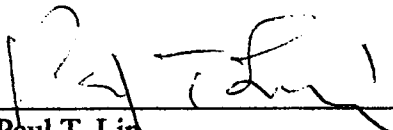

FURTHER, be it known that the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer unto the Assignee, his successors and assigns, the entire worldwide rights to the Lin Patent, and to any foreign counterpart patents to the Lin Patent, and any pending counterpart applications, and any divisions, continuations, continuations-in-part, reissues, substitutions, reexaminations, and extensions thereof, in all countries of the world, including the right to prosecute such applications and obtain patents, and further agrees to execute any and all papers in connection therewith necessary to perfect such patent rights.

And the Assignor does hereby covenant and agree, for himself and his legal representatives, that he will assist the Assignee in enforcing the Lin Patent against infringement; in the making and prosecution of any other applications for Letters Patent that the Assignee may elect to make covering the inventions herein identified, as herein before set forth, including any application for reissue, application for reexamination, application for foreign patent rights, or any proceeding in the United States Patent and Trademark Office affecting the inventions, investing in the Assignee exclusive title in and to all such other applications and Letters Patent; and in the prosecution of any interference which may arise involving said inventions, or any application for Letters Patents herein contemplated; that he will promptly execute and deliver to the Assignee any and all additional papers and make all lawful oaths which may be requested by the Assignee to fully carry out the terms of this assignment; and further that he will communicate to Assignee, or to his successors, assigns,

and legal representatives, any facts known respecting said inventions, and at the expense of the Assignee, testify in any legal proceedings, and generally do everything reasonably possible to aid the Assignee, his successors, assigns and nominees to obtain and enforce the patent rights assigned hereunder for said inventions in all countries.

IN TESTIMONY WHEREOF, the Assignor has hereunto set his hands on the date indicated below.

Dated: Sept 19, 2008

Paul T. Lin
