ASSIGNMENT

I, EARL G. CHRISTENSEN, of 362 South University Avenue, Provo, UT 84601, have made invention(s), embodiments of which are described in a United States patent application entitled BODILY FLUID DRAINAGE ASSEMBLY (hereinafter "the Invention").

STERIGEAR LLC., a Utah corporation, having a place of business at 362 South University Avenue, Provo, UT 84601 (hereinafter "the Assignee"), desires to perfect the entire right, title and interest in and to the Invention, and in and to the Application and to any and all United States Letters Patents that may be granted and issued therefor.

For good and valuable consideration, the receipt and sufficiency of which I acknowledge, I HEREBY HAVE ASSIGNED AND DO ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in the Invention in the Application, and in the Application and all divisions, continuations and continuations-in-part of the Application, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and Foreign countries.

The right to file foreign patent applications on the Invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for the Protection of Industrial Property for such applications.

I authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on the Invention to the Assignee as the owner of the

entire interest, for the sole use and benefit of the Assignee, its successors, assigns and legal representatives.

I will, without further consideration and without expense to me, sign all lawful papers and to perform all other lawful acts which the Assignee may request of me to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on the Invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence or testimony, nullification, reissue, reexamination, interference, extension, or infringement proceedings and any and all pre- and post-grant proceedings be they domestic or foreign involving the Invention.

This assignment and agreement shall be binding upon my heirs and legal representatives.

DATED this 17 day of October 2008.

EARL G. CHRISTENSEN
