### PATENT ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Ferro Corporation, an Ohio Corporation, with an address at 1000 Lakeside Avenue, Cleveland, Ohio, 44114-7000 ("Assignor"), hereby sells, transfers and assigns to Novolyte Technologies Inc., a Delaware corporation, with an address of 111 West Irene Road, Zachary, LA 70791 ("Assignee"), its successors, assigns or other legal representatives, its entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to all United States, foreign, and international patents and applications, together with any extensions, re-examinations and reissues of such patents, patents of addition, patent applications, divisions, continuations, continuations-in-part, and all subsequent filings in any country or jurisdiction claiming priority therefrom, including the inventions disclosed therein and the subject matter of any and all claims which may be obtained in such patents or patent applications, and any right, title and interest Assignor may have in provisional applications to which said patent or patent application claims priority, that are owned by Assignor, and are listed on Schedule A, attached hereto and incorporated herein by reference (the "Patents"), the same to be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors, assigns or other legal representatives to the full end of the term for which each of said patents is granted, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

AND, Assignor hereby conveys all of Assignor's rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment.

AND, Assignor hereby further agrees to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid Patents to said Assignee, its successors, assigns, and legal representatives, but at its or their expense and charges, including the execution of non-provisional, substitution, continuation, divisional, reissue, reexamination, or corresponding foreign or international patent applications.

AND, if Assignee is unable for any reason to secure Assignor's signature to any document, or if Assignor otherwise fails to take any action, deemed necessary by Assignee to perfect or maintain Assignee's ownership of the Patents, then Assignee may, and

Assignor hereby designates and appoints Assignee and its duly authorized officers and agents as Assignor's agent and attorney-in-fact to act on and in Assignor's behalf and stead to, execute and file any such documents, certificates, assignments, applications and other writings and to perform all other lawfully permitted acts to perfect Assignor's assignment and transfer of ownership rights to Assignee with the same legal force and effect as if executed, filed and performed by Assignor. This power of attorney is coupled with an interest and is irrevocable.

AND, Assignor subject to reasonable compensation by Assignee hereby further agrees to provide statements or testimony in any interference or other proceeding in which said Patents may be Involved.

AND, Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue such Letters Patent as shall be granted upon said Patents, or applications based thereon, to said Assignee, its successors, assigns, or legal representatives.

In Witness Whereof, Assignor and Assignee have caused this Agreement to be executed by their duly authorized representatives as of the date written below.
