PATENT & TRADEMARK ASSIGNMENT

THIS PATENT & TRADEMARK ASSIGNMENT ("Assignment") is effective as of December 18, 2008 ("Effective Date") from JOEL RUSNAK 470 Merrimac Street, Newburyport, MA 01950 ("Assignor") to POLLIWALKS, INC., a Delaware corporation ("Assignee").

WHEREAS, Assignor is the owner of certain patents described in Schedule A (the "Patents") and certain trademarks described in Schedule B:

WHEREAS, Assignee and Walnut Private Equity Fund, L.P. ("Walnut") have entered into an Investment Agreement dated December 18, 2008 (the "Agreement"), which Agreement provides, among other things, for the transfer, assignment and conveyance of certain of Assignor's intellectual property rights used or usable in Assignee's business, including the Patents, as a condition precedent to the consummation of the Agreement;

WHEREAS, Assignee wishes to acquire from Assignor the entire right, title and interest in and to the Patents and Trademarks and Assignor is willing to transfer, assign and convey the Patents and Trademarks to Assignee;

WHEREAS, the parties hereto wish to evidence such assignment as set forth below:

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the parties agree as follows:

1. Assignment.

A. Patents. Assignor hereby grants, assigns and conveys to Assignee, its entire right, title and interest in and to the Patents. Assignor also hereby grants, assigns and conveys to Assignee the right to apply anywhere in the world for foreign patent(s) or the equivalent in respect of or based upon the Patents, including, but not limited to, the right to claim the benefit of any international convention or treaty including the Patent Cooperation Treaty (PCT) and to claim priority pursuant to rights accorded Assignor under the terms of the International (Paris) Convention For The Protection of Industrial Property and any and all other available international conventions and treaties. Assignor also sells, assigns and transfers to Assignee the right to assert and enforce all rights arising from the Patents with respect to any infringement of same that occurred before execution of this Assignment and to retain any monies or other damages or awards that may be received by Assignee as a result thereof.

B. Trademarks. Assignor, hereby sells, assigns, transfers and sets over to Assignee, the entire right, title and interest of Assignor in and to said Trademarks, together with the good will of the business symbolized by said Trademarks, and all claims, if any, which may have arisen thereunder prior to the date of these Assignments.

2. Definitions.

A. As used herein, the "Patents" shall include those patents and applications which are listed on Schedule A, and any U.S. foreign or PCT patent filings or grants based on the inventions or subject matter disclosed therein, including, provisional, substitution, reissue, reexamination, divisional or continuation applications.

B. As used herein, Trademarks shall include those listed on Schedule B.

3. Third Party Beneficiary. Nothing expressed or implied in this Assignment is intended to confer upon any person other than Assignor, Assignee and Walnut and their respective successors and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Assignment.

4. Limitation. This Assignment is intended to implement the provisions of the Agreement and shall not be construed to enhance, extend or limit the rights or obligations of Walnut or Assignee thereunder. To the extent any provision of this instrument is inconsistent with the Agreement, the provisions of the Agreement shall control.

5. Governing Law. This Assignment will be governed by and construed in accordance with the laws of the State of Delaware without giving effect to any choice or conflict of law provision or rule that would cause the application of the laws of any other jurisdiction.

6. Further Assurances. Each of the parties hereto shall execute and deliver such further instruments and other documents as the other party may reasonably request to effectuate the purposes of, or to evidence the transactions contemplated by, this Assignment.

7. Counterparts. This Assignment may be signed in any number of counterparts, each of which shall be an original, with the same effect as if the signature thereto and hereto were upon the same instrument. This Assignment shall become effective when each party hereto shall have received a counterpart hereof signed by the other parties hereto.
