Re: 37 CFR Part 401 - Rights to inventions made by Non-Profit Organizations, Small Business Firms and Government Grants, Contracts, and Cooperative Agreements
Our ref: P87003US-Temin/Dougherty

Dear Ms. Hendricks:

We have been advised through an audit by the University of Wisconsin that the below named invention comes under provisions of 35 USC Sections 200-212. The Wisconsin Alumni Research Foundation (WARF), as the non-profit patent management organization for the University of Wisconsin elects to retain title to the invention of Howard M. Temin and Joseph Dougherty entitled "Promoter Deficient Retrovirus Vector."

WARF filed a Patent application on this invention on April 27, 1987, Serial number 043,000, a copy of which is enclosed. The funding source which contributed to the invention was NIH Grant number(s): P01CA22443, T32CA09075, and P30CA07175. The appropriate paragraph regarding funding of this invention will be inserted in the patent application by amendment. The Recorded Assignment of the invention to WARF is also enclosed.

Feel free to contact me if you need any additional information.

Sincerely,

Thomas M. Hinkes

WHEREAS, the United States Government is entitled to certain rights in and to said invention and application by reason of the terms relating to such support; and

WHEREAS, the Wisconsin Alumni Research Foundation, Madison, Wisconsin, hereinafter called the "Licensor" has acquired by assignment from the inventor(s) the entire right, title and interest of the inventor(s) to such invention;

NOW THEREFORE:

1. The Licensor, in consideration of the premises and other good and valuable consideration, hereby grants and conveys to the United States Government a nonexclusive, nontransferable, paid-up license to make, use, and sell the invention throughout the world by or on behalf of the Government of the United States and states and domestic municipal governments under the aforesaid patent application, and any and all divisions or continuations, and in any and all patents or reissues which may be granted thereon during the full term or terms thereof.
2. The Licensor covenants and warrants that he has the right to grant the foregoing license, and that any assignment or license which he may make of the invention or the said patent applications or patents thereon, shall expressly be made subject to this license.
3. The Licensor agrees that the Government shall not be estopped at any time to contest the enforceability, validity, scope of, or title to any patent or patent application herein licensed.
4. This license shall not limit the rights reserved to the Government under the contract(s), grant(s), or other arrangement(s) under which said invention was made.

Signed this *12th* day of *February*, 1990.
