RECITALS

A. Assignor and Assignee entered into a Contribution Agreement dated December 23, 2008 (the “Contribution Agreement”), pursuant to which, concurrently with the signing and delivery of this Patent Assignment, Assignee is acquiring all of the assets of Assignor.

B. Assignor owns all right, title and interest in and to the patents and patent applications identified on the attached Schedule A (collectively, the “Patents”).

C. Assignor wishes to assign, and Assignee wishes to acquire, all of Assignor’s right, title and interest in and to the Patents, throughout the world.

AGREEMENT

Accordingly, in consideration of the promises and of the mutual covenants and conditions contained herein, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. Assignor hereby sells, assigns, transfers, and sets over to Assignee, its successors, assigns and legal representatives, Assignor’s entire right, title and interest in and to the Patents throughout the world, the inventions claimed therein, any renewals, continuations, divisionals, continuations-in-part filed by Assignee, including all Letters Patent of the United States and all re-examinations, re-issues and extensions thereof and all patents for industrial property protection in other countries and jurisdictions that may be granted thereon, and all rights to claim priority on the basis of such application(s), and the right to bring actions and recover for past or future infringements or other violations of the rights assigned herein; and Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States and the patent authorities of other countries and jurisdictions to issue all Patents, hereafter in accordance with the terms of this Assignment; and
2. Assignor hereby further covenants that (a) Assignor has the full right to convey the interest assigned by this Patent Assignment; (b) Assignor and its successors, assigns and legal representatives shall cooperate with Assignee, at Assignee’s request, to execute all documents reasonably necessary to perfect the interests assigned hereby; and (c) Assignor has not executed and will not execute any agreement in conflict with this Assignment.
3. This Patent Assignment is intended to evidence the consummation of the transfer and assignment by the Assignor to the Assignee of the Patents as contemplated by the Contribution Agreement. The Assignor and the Assignee, by their execution of this Patent Assignment, each hereby acknowledges and agrees that neither the representations and warranties in, nor the rights and remedies of any party under, the Contribution Agreement shall be deemed to be enlarged, modified or altered in any way by this Patent Assignment.
