Assignee is desirous of acquiring the entire right, title, and interest in said invention, and improvements thereon, and in all applications, and letters patent, copyrights, and similar property rights therefor, when granted in any country.

Inventor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any Letters Patent of the United States of America to assignee, consistent with the terms of this agreement.

Authorization. Inventor hereby authorizes assignee to file applications for, to obtain, and to maintain, any patent(s) which assignee may elect to seek in any country or jurisdiction of the world.

Cooperation. Inventor covenants and agrees with assignee that Inventor will not execute any writing or do any act whatsoever conflicting with these presents, and that Inventor will, at any time upon request, without further or additional consideration, but at the expense of assignee, execute such additional acts as said assignee may deem necessary or desirable to perfect the assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, renewal, reissued, or extended Letters Patent of the United States, or of any and all foreign countries, on said invention, and in enforcing any rights or choses in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing
