ASSIGNMENT OF PATENT RIGHTS

THIS ASSIGNMENT OF PATENT RIGHTS (this "Assignment") is made as of December 1, 2008, by and between Isochron Inc., a Delaware corporation (the "Assignor"), and Streamware Corporation, a Massachusetts corporation (the "Assignee"). This Assignment is executed pursuant to the terms of that certain Asset Purchase Agreement dated as of December 1, 2008 by and among the Assignor and the Assignee (the "Purchase Agreement") in connection with the Closing of the transactions contemplated by the Purchase Agreement. Capitalized terms not defined in this Assignment shall have the meaning assigned to such term in the Purchase Agreement.

In consideration of the foregoing premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor and the Assignee agree as follows:

1. Upon the terms and subject to the conditions of the Purchase Agreement, the Assignor hereby sells, assigns and transfers to the Assignee the Assignor's entire right, title and interest in and to the patents and patent applications listed on Schedule 1 attached hereto (collectively, the "Patents"), throughout the world and the inventions covered thereby, including any right to claim priority and any right to any continuation, division, or substitute application thereof and any right to any reissue, restoration, extension or reexamination of any Patent thereof, the same to be held and enjoyed by the Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns and legal representatives, to the end of the terms for which the Patents have been or will be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment had not been made; together with, to the extent transferable, any claims by the Assignor for damages by reason of past infringement of the Patents with the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns and other legal representatives.

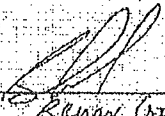

2. As agreed to in the Purchase Agreement, the Assignor will execute such documents and do such other acts as may be necessary for the Assignee to obtain, maintain, issue or enforce its rights in the Patents.

3. This Assignment (a) is irrevocable and effective upon the Assignor's signature to and delivery of a manually signed copy of this instrument or facsimile or email transmission of the signature to this instrument in connection with the Closing, if and only if the Closing is completed, (b) benefits and binds the parties to the Purchase Agreement and their respective successors and assigns, (c) does not modify or affect, and is subject to, the provisions of the Purchase Agreement, and (d) may be signed in counterparts as provided in the Purchase Agreement.

[SIGNATURE PAGE FOLLOWS]

The Assignors have executed this Assignment as of the date first above written.

ISOCHRON INC.

By: 

Name: Bryan Ostrom
