PATENT APPLICATION ASSIGNMENT

WHEREAS, Entegee, Inc. ("ASSIGNOR"), a Massachusetts corporation having its principal office at 150 Bear Hill Road, 2nd Floor, Waltham, Massachusetts 02454, owns certain rights in U.S. Patent Application No. 12/022,535 filed 30 January 2008, entitled "Flow-Inducing Baffle for Engine Compartment Ventilation" ("Application"); and

WHEREAS, Deere & Company ("ASSIGNEE"), a Delaware corporation, having its principal office at One John Deere Place, Moline, Illinois 61265, desires to acquire the entire right, title and interest in the Application and all inventions ("Invention(s)") disclosed therein;

NOW, THEREFORE, for good and valuable consideration paid to ASSIGNOR by ASSIGNEE, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR hereby assigns, sells and transfers to ASSIGNEE all rights, title and interest in and to the Invention(s) in the Application; in and to the Application and any other United States or foreign (including international) applications for the Invention(s), including any divisional, continuation, continuation-in-part, or reissue applications thereof; any United States or foreign patents corresponding to such patent applications and any reexaminations of such patents; in and to the right to claim priority based on the filing dates of such patent applications under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purpose; and in and to all claims for profits or damages due or accrued by reason of past, present, or future infringements of such patents and patent applications, with the right to sue for, and collect the same for ASSIGNEE's own use and benefit, and for the use and benefit of ASSIGNEE's successors and assigns. Assignor will without further compensation, perform such lawful acts and execute all further documents as ASSIGNEE, its successors and assigns may reasonably request to effectuate fully the assignment of such patents and patent applications.

ASSIGNOR hereby authorizes and requests the United States Patent and Trademark Office to issue any United States Letters Patent which may issue for the Application, including any divisions, continuations, continuations-in-part, reexaminations, reissues or extensions thereof, to ASSIGNEE, its successors and assigns.

ASSIGNOR does hereby covenant and agree with ASSIGNEE, its successors and assigns, that ASSIGNOR will not execute any writing or do any act conflicting with this assignment, and that ASSIGNOR will execute such additional writings and do such additional acts as ASSIGNEE, its successors and assigns, may deem necessary or desirable to perfect its enjoyment of this assignment, and render all necessary assistance in making application for and obtaining original, divisional, continuation, continuation-in-part, reissued, reexamined or extended Letters Patent of the United States of America that may issue from the Application and likewise for all foreign patents and patent applications.
