ASSIGNMENT

THIS ASSIGNMENT is by Dan S. Sandel (hereinafter referred to as "Assignor"). Assignor has invented one or more certain inventions described in a United States Design Patent Application entitled **SURGICAL INSTRUMENT TRAY** (the "Application"), and which was filed on Feb. 19, 2009 as Application No. 29/332,572 (the "Invention(s)"). Assignor authorizes the Assignee, identified below, or its representatives, to insert the filing date and application number of the Application when known.

Sandel Medical Industries, LLC, a corporation of the State of Delaware, having a place of business at 19736 Dearborn St., Chatsworth, CA 91311 ("Assignee"), desires to acquire the entire right, title, and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which I acknowledge, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title, and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that he is the sole owner of the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment and to sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for

Patents; conduct proceedings regarding the Rights, including any litigation or Interference proceedings; or perfect or defend title to the Rights.

Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

Date: 2/9/09
