ASSIGNMENT

WHEREAS, Jeffrey Ciudadaj of Angwin, California, Assignor, has invented a new and useful PROCESS AND STRUCTURE FOR SUPER-ACCELERATING NATURE, PRODUCING A CONTINUOUS SUPPLY OF FRESH WATER FROM SALT WATER BY USING SOLAR, WIND AND WAVE ENERGY, for which United States Patent Application 10/977,408 was filed by him on October 29, 2004; and

WHEREAS, Assignor believes himself to be the original, first and sole inventor of the invention disclosed and claimed in the application for Letters Patent filed on October 29, 2004 in the United States Patent and Trademark Office and assigned Serial No. 10/977,408; and

WHEREAS, Desal, L.L.C., a California Limited Liability Company, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application for a United States Letters Patent Serial Number 10/977,408, and any other Letters Patent that might be granted for the invention in the United States and/or throughout the world, including any divisional and/or continuation and/or continuation-in-part;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee, the entire right, title and interest in and to the invention, the application, United States Letters Patent Application Number 10/977,408, and any other Letters Patent that might be granted for the invention in the United States and/or throughout the world, including any divisional and/or continuation and/or continuation-in-part, including any as-of-yet unexpired right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing the Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application, United States Letters Patent Application Number 10/977,408, and any other Letters Patent that might be granted for the invention in the United

States and/or throughout the world, including any divisional and/or continuation and/or continuation-in-part.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment. Assignor further represents and warrants that he does not know of any improvements to the invention other than what has been disclosed in the application unless said improvement is disclosed to Assignee in writing prior to the execution of this Assignment.

Assignor authorizes and requests that the Commissioner of Patents of the United States and the corollary official of all foreign countries in which applications have been filed to issue any Letters Patent granted for the invention, whether on the application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment.
