CONFIRMATION OF ASSIGNMENT AND ASSIGNMENT

WHEREAS, Robert J. Crowley (referred to here as "Crowley") is President and a principal shareholder of Soundwave Research Laboratories, Inc, a Massachusetts corporation having offices located at 72 Nickerson Road, Ashland, Massachusetts 01721 (referred to here as "Soundwave");

WHEREAS, Crowley is an inventor of the subject matter of the patent applications listed on attached Exhibit 1;

WHEREAS, Crowley and Soundwave (referred to here, collectively and severally, as the "ASSIGNORS") intended to convey to Shure Incorporated, an Illinois corporation having offices located at 5800 West Touhy Avenue, Niles, IL 60714 (referred to here as "Shure" or ASSIGNEE) all rights, title and interest in and to the patent applications listed on Exhibit 1 and/or ASSIGNORS did in fact already convey to Shure some and/or all of such rights, title and interest as a result of the Assignment executed December 22, 2008, fully incorporated herein by reference and attached as Exhibit 2; and

WHEREAS, Shure desires to acquire all of ASSIGNORS' right, title and interest in and to the patent applications listed on Exhibit 1 to the extent it has not already acquired these rights as a result of the Assignment in Exhibit 2.

NOW, THEREFORE, ASSIGNORS and ASSIGNEE, intending to be legally bound, hereby acknowledge, confirm and agree as follows:

1. Confirmation of Previous Assignment. ASSIGNORS and ASIGNEE confirm and agree that ASSIGNORS have already, effective as of December 29, 2008, sold, transferred, and assigned to ASSIGNEE, its successors assigns and legal representatives, all of the right, title, and interest in and to said patent applications listed on Exhibit 2 attached hereto, including without limitation, the worldwide rights to the inventions described and claimed therein, any reissues, reexaminations, divisions, continuations, renewals, extensions and continuations-in-part therefor throughout the world, together with all rights under the International Convention for the Protection of Industrial Property and any similar treaties or agreements, the same to be held and enjoyed by Shure for its own use and benefit and the use and benefit of its successors, assigns and legal representatives, as fully and entirely as the same would have been held and enjoyed by Crowley and/or Soundwave, had an assignment not been made, together with all income, royalties, damages or payments resulting from or attributable to activity or conduct after the effective date of the Assignment, and the right to sue and collect for all future, present and past infringements thereof, including infringements which may have occurred prior to the execution of this Assignment.

2. Nunc Pro Tunc Assignment from Crowley to Soundwave. ASSIGNORS and ASSIGNEE further agree that, effective prior to the Assignment in Exhibit 2, to the extent that the following has not occurred prior to the execution of the Assignment in Exhibit 2, for good and valuable consideration, the receipt and sufficiency of which are

hereby acknowledged, Crowley does hereby sell, transfer, and assign *nunc pro tunc* to Soundwave, its successors assigns and legal representatives, all of the right, title, and interest in and to said patent applications listed on Exhibit 1 attached hereto, including without limitation, the worldwide rights to the inventions described and claimed therein, any reissues, reexaminations, divisions, continuations, renewals, extensions and continuations-in-part therefor throughout the world, together with all rights under the International Convention for the Protection of Industrial Property and any similar treaties or agreements, the same to be held and enjoyed by Soundwave for its own use and benefit and the use and benefit of its successors, assigns and legal representatives, as fully and entirely as the same would have been held and enjoyed by Crowley, had this Assignment not been made, together with all income, royalties, damages or payments resulting from or attributable to activity or conduct after the effective date of this Assignment, and the right to sue and collect for all future, present and past infringements thereof, including infringements which may have occurred prior to the execution of this Assignment. This *nunc pro tunc* assignment is effective as of prior to the execution of the December 22, 2008 Assignment in Exhibit 2 such that the effect of the December 22, 2008 Assignment is that all rights described above were transferred from Soundwave to Shure as of that date.

3. Assignment from Crowley and Soundwave to Shure. To the extent that the following has not occurred as a result of the execution of the Assignment in Exhibit 2 and/or as a result of the other provisions of this Agreement or any other action, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, said ASSIGNORS hereby sell, transfer, and assign to ASSIGNEE, its successors assigns and legal representatives, all of the right, title, and interest in and to said patent applications listed on Exhibit 1 attached hereto, including without limitation, the worldwide rights to the inventions described and claimed therein, any reissues, reexaminations, divisions, continuations, renewals, extensions and continuations-in-part therefor throughout the world, together with all rights under the International Convention for the Protection of Industrial Property and any similar treaties or agreements, the same to be held and enjoyed by ASSIGNEE for its own use and benefit and the use and benefit of its successors, assigns and legal representatives, as fully and entirely as the same would have been held and enjoyed by ASSIGNORS, had this Assignment not been made, together with all income, royalties, damages or payments resulting from or attributable to activity or conduct after the effective date of this Assignment, and the right to sue and collect for all future, present and past infringements thereof, including infringements which may have occurred prior to the execution of this Assignment.

ASSIGNORS, each for itself or himself, hereby represent, warrant, covenant and agree that collectively or severally they had prior to the execution of the Assignment in Exhibit 2 and/or have the full right to convey the entire interest purported herein to be assigned, and that it or he has not executed, and will not execute, any agreement or other instrument in conflict herewith.

ASSIGNORS agree: (a) to execute (i) all necessary papers throughout the world to be used in connection with any patents resulting from the patent applications listed on

attached Exhibit 1 and patent applications listed on attached Exhibit 1 as ASSIGNEE may deem necessary or expedient, (ii) all papers in connection with any interference, legal or other proceedings throughout the world to maintain, protect or enforce, or otherwise relating to, any patents resulting from the patent applications listed on attached Exhibit 1 and patent applications listed on attached Exhibit 1, and (iii) all papers and documents which may be necessary throughout the world in connection with the preparation, filing and prosecution of any applications for any of the inventions in the patent applications listed on attached Exhibit 1; (b) to cooperate with ASSIGNEE at ASSIGNEE'S expense in every way reasonably possible in obtaining evidence and going forward in any such proceedings throughout the world; and (c) at ASSIGNEE'S expense to perform all other affirmative acts which in ASSIGNEE'S reasonable discretion may be necessary or desirable throughout the world to maintain, protect or enforce any patent applications or patents resulting from the patent application listed on attached Exhibit 1. These obligations of assistance by ASSIGNORS shall continue for so long as ASSIGNEE may require such assistance from ASSIGNORS.

ASSIGNORS hereby grant to the law firm of Banner & Witcoff, Ten South Wacker Drive, Suite 3000, Chicago, IL 60606, authority and power to insert on this instrument any further information which may be necessary or desirable for identifying any of the patent applications listed on attached Exhibit 1 for purposes of recordation in the United States Patent and Trademark Office or in any foreign country.
