This Confirmation Agreement is made as of 5th February, 2009 by and between Infineon Technologies AG ("Assignor"), a company incorporated under the laws of Germany and having offices located at Am Campeon 1-1285579 Neubiberg, Germany, and Marvell International Ltd. ("Assignee"), a Bermuda corporation and having offices located at Argyle House 41A Cedar Avenue, Hamilton Hm12 Bermuda.

WHEREAS, Assignor and Assignee have entered into a Patent Assignment Agreement ("Original Agreement") dated December 18, 2008 whereby certain patents and patent applications (collectively, "Patents") as identified in Exhibit A thereto, a copy of which is attached hereto, are transferred by Assignor to Assignee, subject to terms and conditions therein.

WHEREAS, Assignor and Assignee wish to confirm the transfer and assignment of the Patents.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

Subject to the terms and conditions of the Original Agreement, Assignor hereby confirms that Assignor has sold, assigned, conveyed and transferred onto Assignee, its successors and assigns, the entire right, title and interest in and to the Patents, including any patents issuing from or based upon all patent applications thereon, or any continuations, continuations-in-part, divisionals, reissues, re-examinations or extensions of the Patents, and including, without limitation, the right to sue for and recover damages for any present or future infringement of such Patents, the same to be held and enjoyed by Assignee for its own use, and for its legal representatives and assigns, to the full end of the term for which patents are granted, as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made.

Assignor authorizes the Commissioner of Patents and Trademarks of the United States, and any officer of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to Assignee and its successors, assigns and other legal representatives in accordance with the terms of this Confirmation Agreement and the Original Agreement.
