Reg. No. 25,702

Assignment of U.S. Patent and Non-Provisional U.S. and International Applications

In consideration of Ten Dollars (\$10.00), and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, the undersigned,

W. Curtis Broughton, a citizen of the United States, residing at 129 Lone Star Drive, Georgetown, Williamson County, Texas 78628, on the effective and signing date of March 11, 2009, do:

Hereby sell, assign, transfer and set over to Quickpen International Corporation, a corporation of the State of Washington, having a place of business at 384 Inverness Drive Parkway, Parkway 200, Englewood, Colorado 80112, its successors, assigns and legal representatives, the entire right, title and interest for all countries, in and to any and all inventions which are disclosed and claimed, and any and all inventions which are disclosed but not claimed, in United States Letters Patent 7,283,975 ('975 Patent) entitled "System and Method For Tracking and Managing Construction Projects," and in related United States and International applications for patent, as follows:

U.S. Application Serial No. 09/777,042

U.S. Application Serial No. 10/192,932

U.S. Application Serial No. 11/869,635

International PCT Application No. WO2004/008306

Australian Application Serial No. AU2002318274 (A1), (B2)

Canadian Application Serial No. CA 2 492 119 A1

United Kingdom Application Serial No. GB 2 406 420 A

New Zealand Application Serial No. NZ20020537496 (A)

and in and to the foregoing Patent and applications and all divisional, continuing, substitute, renewal, reissue, and all

other patents and applications for U.S. Letters Patent or other related property rights in any and all foreign countries which have been or shall be filed on any of said inventions disclosed in the foregoing '975 Patent and aforesaid related applications; and in and to all original and reissued patents or related foreign documents which have been or shall be issued on said inventions, together with all claims for damages by reason of past infringement of the '975 Patent, and with the right to sue for and collect the same for its own use and enjoyment and for the use and enjoyment of its successors assigns or other legal representatives;

Authorize and request the Commissioner for Patents of the United States to issue to and in the name of said Assignee, the corporation above named, its successors, assigns and legal representatives, in accordance with this assignment, any and all United States Letters Patent on said inventions or any of them disclosed in the foregoing United States applications;

Agree that said Assignee may apply for and receive foreign Letters Patents or rights of any other kind for said inventions, or any of them; and may claim, in applications for foreign Letters Patents or other rights, the priority of any of the aforesaid United States '975 Patent and United States applications under the provisions of the International Convention of 1883 and later modifications thereof, under the Patent Cooperation Treaty, under the European Patent Convention or under any other available international agreement; and that, when requested, without charge to Assignor, but at the expense of said Assignee, its successors, assigns and legal representatives, Assignor will carry out in good faith the intent and purpose of this assignment, the undersigned Assignor or the undersigned Assignor's executors or administrators will, for the United States and all foreign

countries, execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications or other documents on any and all said inventions; execute all rightful oaths, assignments, powers of attorney and other papers; reasonably communicate to said Assignee, its successors, assigns and representatives, all facts known and documents available to the undersigned relating to said inventions and the history thereof; reasonably testify, at the expense of Assignee, including compensation for Assignor's time at a rate not to exceed \$150_ per hour, in all legal proceedings in any country concerning said inventions; and generally do everything reasonably possible which said Assignee, its successors, assigns or representatives shall consider desirable, but at Assignee's expense (not the expense of Assignor), so long as reasonable, for aiding in, but with Assignor not being responsible for, securing, maintaining and enforcing proper patent protection for said inventions and for vesting title to said inventions and all applications for patents or related foreign rights and all patents on said inventions, in said Assignee, its successors, assigns and legal representatives; and

Covenant with said Assignee, its successors, assigns and legal representatives that I have the full right and authority to convey the interests herein assigned, and that no assignment, grant, mortgage, license, security agreement or other agreement affecting the rights and property herein conveyed has previously been made to others by the undersigned, and that full right and authority to fully and completely convey the same as herein expressed is possessed by the undersigned.

This Assignment shall be interpreted under the laws of the State of Texas, where it is being signed, in the event of any dispute relating to or action based upon it.
