INVENTION ASSIGNMENT

Title: Pressure Balanced Shaft Seal Assembly
Application No.: 12/397,775
Docket No.: USPA-0100 CIP

WHEREAS, the undersigned David C. Orlowski, a citizen of the United States of America, of 307 Santander Court, City of Punta Gorda, County of Charlotte, State of Florida, has invented a Pressure Balanced Shaft Seal Assembly, for which the undersigned has made non-provisional application for a U.S. Letters Patent on March 4, 2009, assigned serial number 12/397,775 of which the undersigned is now the owner of the entire right, title and interest.

NOW, TO ALL WHOM IT MAY CONCERN: Be it known that, pursuant to agreement between the undersigned and Isotech of Illinois, Inc., a corporation organized under the laws of the State of Illinois, and having its principal office at 7936 – 42nd Street West, Rock Island, Illinois, hereinafter referred to as the Assignee, and for other good and valuable considerations, receipt of which are acknowledged hereby, the undersigned has sold, assigned, transferred and set over, and does hereby sell, assign transfer and set over, unto the Assignee, all the right, title and interest which the undersigned has or may have in and to the said invention and application, including the right to file foreign design patent applications for said invention in the name of the Assignee, and any right of priority, and in and to any and all Letters Patent of the United States and of foreign countries that may be granted for said invention, and any reissue or extension thereof; the same to be held and enjoyed by the Assignee, its successors or assignees, as fully and entirely as the same would have been held and enjoyed by the undersigned had this assignment and sale not been made.

And the undersigned does hereby authorize and request the Commissioner of Patents and Trademarks to issue the said Letters Patent, when granted, to the Assignee.

And for the above-named considerations, the undersigned hereby covenants and agrees that he will, at the request of the Assignee, its successors or assigns, execute any and all foreign, divisional, substitute, and continuation applications for said invention and any application for the reissue or extension of any Letters Patent that may be granted upon said application, or for the improvements described therein, that the Assignee, its successors or assigns, may deem necessary or expedient; and do all other and further acts that may be or become necessary to obtain said Letters Patent and any reissue or extension of the same.

IN WITNESS WHEREOF, the undersigned has hereunto set his hands and seals on the dates indicated below.
